

**Electric driven Steam Cleaners**

- Reliable Industrial Duty Motors
- 5-Year Warranty on all Pumps
- Compact, Efficient and Serviceable
- Quick Start Electric Motors
- Performance Options Available

**BullDogPRO™ Water Blasters** are the toughest cleaning systems on the market built specifically for demanding applications. Powered by continuous duty Baldor or Leeson motors, all **BullDogPRO** systems feature Low-Speed version tri-plunger pumps plumbed for reliability and long term low cost. Serious cleaning requires serious equipment.

There's only one choice - the **BullDogPRO™**.

All control boxes and electrical wiring are **moisture resistant** and wired for safety according to **UL** industrial guidelines... The biggest difference is easy access test-points, color-coded wiring, indicator lights for troubleshooting, redundant safety controls on heaters, and the most complete array of optional controls and shut-downs in the industry... we "wrote the book" on abuseability. ..and we have the track-record to prove it.

**Industrial-grade**, heavy duty tri-plunger pump systems with **forged brass head**, oil-bath and **ceramic pistons for durability**, and high-volume bypass with over-heat shutdown are for long-term-low-cost.

Ultra reliable **Beckett Burners**, or **RobertShaw Controls** (on gas fired units) provide the heat to the industry's **most efficient** heaters in their class.

All **BullDogPRO™** frames are sandblasted, primed and **powder coated** for the look and durability you want.

Reliable, easy-starting industrial duty electric motors run ultra quiet and provide years of hassle free service.

MODEL	GPM	PSI	HP	TEMP.
<b>SHE 3-400</b>	<b>2.6</b>	<b>400</b>	1.5	300°F
