

**Gas engine powered Hot Pressure Washers, diesel fired. performance, durability, reliability, serviceability, long-term-low-cost. UN-matched.**

**Hot water to 6000psi** with Vanguard, Subaru, Kohler or Honda gasoline engine, diesel fired heater, and an attitude towards removing "that which **must** come off the surface". These are modular in design for simplistic configuration, better trailer balance and easy access.. No machine compares in **long term low cost, ease of maintenance, or serviceability.** Our **engineering and service departments work together.** You will be **impressed long-term.**

**Beckett Burners** provide the **efficiency, our major upgrades** make them **the most reliable** heaters in the industry, persistently.

Reliable, **easy-starting** industrial duty engines come with low oil shutdown protection and solid 2 year warranties.

Super **Lo-Tone** muffler keeps motor ultra quiet for hassle free work time.

All **BullDogPRO™** frames are sandblasted, primed and **powder coated** for the look and durability you want.

System is shown with many options,.. Vacuum Reclaim, Tanks & reels, and many more are available...

**We specialize in custom systems.**

Easy access **oil-drain** for quick oil changes and improved reliability.

**Fuel Cells** are available in dozens of types, shapes and sizes, plastic and metals, many with QC's for easy removal.

Convenient throttle controls and **electric start** are standard on all models.

**Rubber** vibration isolators provide much quieter and longer life operation. They include all mounting hardware.

**Corrosion-proof plumbing with big cleanable filters and beefy corrosion-proof electrical systems,** add to our unmatched reliability.

**Industrial-grade, heavy duty** triplex pump systems with **forged brass head, bronze alloy rods,** Large capacity oil-bath and **ceramic plungers** are all about durability. We add high-flow feed, high-capacity clear-bowl filter assembly, and high volume bypass system for **abusability.**

Our **heaters** always include a conveniently located pressure **gauge** and indicator **lights** for rapid testing, adjusting, and troubleshooting.

**Belt-Driven Generators** are also available on most models !

**Dual pumps** are used on systems of over 7gpm... Dual feed lines and slower pumps have more reliable seals !! **Easier access repair kits are less expensive** and a nice bonus on the serviceability ! These systems are simply the **best designs** on this planet, and we have too many options to list !
