

A Mini Digital Date Night

Racing Hearts

Connecting with your partner has never been easier! When we're busy, we're in "SWAT" mode, putting out fires, doing chores, taking care of kids and household. You're not alone - we ALL do it! Use our "Racing Hearts" game to put the pitter patter back in your heart. Each suit has a requirement, and each card in the suit also has its own question or action.

You can either use a real deck of cards to play (and match your draw to the guide), or you can print and cut the attached cards - the choice is yours. Either way, you'll be in for a great date night of discovery and racing hearts!
