BIOS living

The handheld design allows for easy handling and the patent pending cutting mechanism provides

the desired length of tape every time.

Instructions:

- 1. Release tape by pressing the trigger and cut to preset length of 1.5" (3.8 cm) by immedietly releasing trigger.
- 2. For longer lengths of tape, hold the trigger and pull out the desired length of tape, then release the trigger to cut tape.
- 3. Fits most tape refills with a thickness of 0.05 0.07 mm and tape roll size of $\frac{3}{4}''$ width up to 32.9m (1296") in length.

Refill instructions :

- 1. Open transparent cover by pressing the lock.
- 2. Take core out and install tape on core, then put back into dispenser.
- 3. Pull tape tip and place it on rubber rollers.
- 4. Close tape transparent cover.
- 5. Squeeze the trigger and the handheld dispenser is ready to use.
