

Bassinet Juno

Assembly & Instructions

Welcome to Team Rookie!

We are very happy to welcome you and wish you and your baby a wonderful time with Rookie!

Our goal was to design and create a stylish bassinet which meets the highest quality standards. Our bassinets are manufactured in a family-run manufactory which produces exclusively for Rookie. We work closely with the family business to ensure the quality and uniqueness of our bassinets.

Rattan is one of the most sustainable materials that can be used to make furniture. It is a rapidly renewable raw material and therefore a sustainable alternative to the deforestation of our precious forests.

Rattan is a natural product which is wonderfully light, stable, hard-wearing and durable. Despite its light weight, the Rookie bassinet is more durable and elastic as wood.

Please refer to the instructions for use on the following pages. Additionally you will find a video instruction [here](https://www.rookie-baby.com/manual):

Do you have any questions or feedback for us?
Send us an e-mail to: team@rookie-baby.com

Kind regards
Your Team Rookie

SAFETY WARNINGS AND RECOMMENDATIONS

Please read these instructions carefully!

They contain important information, instructions and recommendations for the bassinet to ensure maximum safety and comfort for your baby at all times.

Should you be missing pieces contact us at team@rookie-baby.com before you assemble your bassinet.

1. Never leave your baby unattended!
2. Do not use the bassinet for babies older than 12 months!
3. Use only for a baby who cannot climb out of the bassinet or hang on it!
4. The bassinet can only be used for one baby at a time!
5. Use only the mattress provided!
6. Do not use a water mattress for this bassinet!
7. Assembling and unfolding must be done by adults only!
8. Place the bassinet on even and horizontal surfaces only!
9. Do not attach strings, ropes and ribbons and mount toys on the bassinet in order to avoid strangulation or suffocation!
10. Do not use the bassinet for babies with height more than 60cm!
11. Do not place objects in the bassinet that can cause entrapment of the limbs, strangulation or choking hazard!
12. Do not use the bassinet near stoves, heaters, campfires and other sources of heat!
13. Do not place the bassinet near lamps or wall outlets which can be reached by the baby!
14. All connecting elements (joints) should be fixed correctly! Periodically check for loose screws to avoid entrapment of the baby's fingers. In this way you will prevent the risk of injury or suffocation!
15. Do not move the bassinet while the baby is in it!
16. Discontinue the use of the bassinet, if you find any damaged or missing parts! If you find any malfunction, do not use the product, until the malfunction is repaired! You should contact an authorized service or the distributor /producer for assistance!
17. Do not use parts and components that are not supplied by the producer, because they can make the bassinet unsafe!
18. Do not apply any changes or modifications to the bassinet's construction! The producer does not take any responsibility for the safety of the baby in case the bassinet has been repaired with spare parts not approved by the producer or if the construction has been modified!
19. The bassinet is intended for domestic use only. It should not be used as a storage box!
20. Do not let your baby have access to the packaging of the products. The packaging of the product must be kept out of the reach of babies and children at the time of and after unpacking. In this way you will avoid the risk of strangulation caused by entanglement or external blocking of the respiratory tract through the child's nose or mouth!

GETTING STARTED

CAUTION: keep packaging away from your child!

1. Remove the mattress from the bed and place the rattan bed upside down.
2. Align the steel frame on-top of the rattan bed.

Secure the steel frame to the rattan bed with screws. Please note that you will have to create your own holes.

3. Turn the bassinet around and place mattress inside the bassinet.

If the bassinet sways or wobbles, the steel frame (legs) can be adjusted to stabilize the bassinet.

CARE INSTRUCTIONS

Remove mattress cover and close the zip before washing.

Wash by hand or in the washing machine at max 40°C with a mild detergent.

Do not use detergents that contain bleach, perfume, dyes, optical brightener or chlorine.

Air dry in the sun. Do not tumble dry your mattress cover.

Iron on low to medium heat.

Brush rattan with a dry soft cotton cloth. Dampen the cloth with water or mild detergent to remove tough soils.

After each cleaning leave the bassinet to fully dry.
