

NATURAL SWIMMER

You come from a swimming background or have managed to perfect your technique, with no important errors. You maintain a correct position in the water, horizontal, elevated, and hydrodynamic. You are looking for maximum flexibility that lets you develop your skill, without changing your technique. You're a Natural Swimmer.

WHAT YOU SHOULD LOOK FOR IN A WETSUIT

ABSOLUTE FREEDOM

Minimal restriction on your stroke, providing complete freedom of movement.

A SECOND SKIN

Maximum flexibility that does not compromise your technique and delays the appearance of fatigue.

JUST ENOUGH FLOTABILITY

The floatability necessary to ensure thermal insulation, without it altering your position in the water.

TOTAL SWIMMER

Your technique is good. Your stroke and position are okay, but you sometimes make small mistakes related to your kicking technique. You're looking for a wetsuit that meets your needs: maximum freedom in the upper body and extra floatability that helps you achieve a more effective and hydrodynamic horizontal position.

WHAT YOU SHOULD LOOK FOR IN A WETSUIT

THE COMPLETE SOLUTION

A wetsuit that adapts technology and design, according to the swimmer's needs: flexibility and floatability, where you most need it.

TOTAL MOVEMENT

Maximum flexibility in the upper body that will not limit your movements or your technique.

A LITTLE HELP

Extra floatability in the lower body will enable you to maintain a horizontal posture, even when you're tired.

PROGRESSIVE SWIMMER

You've just recently got started in swimming and you still don't feel completely comfortable in the water. You're looking for a wetsuit that helps correct your position, because when your technique is less-than-polished, floatability becomes the most determining factor.

WHAT YOU SHOULD LOOK FOR IN A WETSUIT

A STABLE POSITION

Floatability and extra reinforcement to improve your body position and technique.

SECURITY AT SEA

Maximum floatability that gives you confidence in open water, even when you're tired.

IMPROVE YOUR TECHNIQUE

All the technologies that correct your weak points.
