

Mechanical Transplanter Company

Model 90 - Mulch Layer

Model 90 with optional
In-Ground Drip Attachment

Model 90 - Lays plastic smoothly and tightly

- * NEW Set-Ahead Hitch for greater Drip Tape flexibility
- * The most adjustable and free floating mulch layer on the market. Side arms float independently.
- * Plastic roll floats with the contour of the ground
- * Easily adjustable movable clamp toolbar system
- * Large gauge wheels (5.70 x 8) control depth and allow for smooth operation in all soil conditions
- * Leveling pan smooths ground before mulch is applied
- * Smooth guide wheels stretch mulch over bed and feed it into furrows without cutting plastic
- * Two sets of large 14" disc blades. One set to open furrow for mulch and one set to cover the mulch evenly
- * Large dirt shields keep mulch clean when moving at high speeds
- * Extra roll carrier
- * In-Ground or Above Ground Drip Attachment available
- * Lays 30-66" plastic mulch. A longer toolbar is needed for 72" mulch.
