

Mechanical Transplanter Company

Plasticulture Equipment

Model 85 Mulch Layer

- * Makes laying plastic mulch quick and easy
- * Lays 3' or 4' plastic
- * Holds plastic down tightly
- * Great for smooth, high speed plastic laying
- * Shown with optional drip attachment
- * Extra roll carrier

Model 90 Mulch Layer

- * The most adjustable and free floating mulch layer on the market
- * Plastic roll floats with ground contour
- * Two sets of 14" disc blades - One set to open furrow and one set to cover the mulch evenly
- * Drip attachment available
- * For 3' - 5' plastic (6' special order)

Model 92 Mulch Layer

- * Leveling pan for very smooth and firm beds
- * Double rollers for easy loading of plastic
- * Roller assembly allows for self starting of plastic, just set the machine down and go!
- * Bed shaping shoes open furrow for the stretch wheels hold the plastic while rear cover discs apply soil to edge of plastic
- * For 3' and 4' plastic (5' special plastic order)
- * Shown with optional drip attachment and plastic cutter

Model 94 Bed Shaper/Mulch Layer

- * Prepares bed and lays plastic mulch in one pass
- * Creates up to an 8" high bed
- * Handles 4' or 5' plastic widths
- * Adjustable bed widths ranging from 24"- 40"
- * Adjustable plates to control shape of bed from flat to crowned
- * Hard UHMW plastic lined bed shaper plates to provide a non-stick surface and longer wear
- * Four large discs to bring soil into bed shaper pan
- * Drip attachment and fertilizer attachment available

Model 900 Mulch Planter

- * Spacings of 10, 12, 15, 20, 30, 60 inches
- * Sets Jiffy 7's, peat pots, and cell type plants through plastic accurately and packs the plants quickly into the soil
- * Adjustable rubber packing wheels with weight control
- * Adjustable "live" axle for various bed heights and widths
- * Shown with option #H802 Hitch
- * Optional cushion seat, water valve and barrel available

* 3 Pockets are included with all 900 series units. Additional pockets will be needed for close plant spacings

Model 912 & 948 Mulch Planter

- * Designed to plant cell type plants through plastic mulch
- * Accurate depth control and selected range of plant spacings
- * Plants on raised beds or flat ground
- * Smooth adjustable packing wheels for packing and easy depth control
- * Shown with optional cushion seat
- * Choice of flat trays or carrousel trays
- * Quick-change pockets

Model 912T & 948T Twin-Row Mulch

- * The twin row units allow you to use your plastic more efficiently
- * The twin units are available with row spacings of 12", 13", 16", or 18"
- * The 948 differs from the 912 only in having a larger disc producing wider spacings
- * Staggered or check row planting is standard on all twin row machines

Spacing Chart for 912 & 948

	<u>912</u>	<u>948</u>
6 pocket	10"	13.5"
5 pocket	12"	16.5"
4 pocket	16"	22"
3 pocket	21"	27"
2 pocket	32"	44"
1 pocket	64"	88"

Model 95 Tunnel Layer

The three sizes of spring steel wires we carry are re-usable.

27" tunnel requires 54" wire and 60" plastic

36" tunnel requires 64" wire and 72" plastic

48" tunnel requires 76" wire and 84" plastic

Only one person needed to feed wires into the layer

Model 98 Plastic Lifter

- * Adjustable for various width plastics
- * Three adjustable spring loaded swivel coulters
- * Two heavy-duty hardened undercutting knives
- * Gauge wheels to hold the correct undercutting knife depth
- * Toolbar clamp design for quick and easy changes
- * Heavy-duty three-point hitch
