

32"x58" Cushion Storage Box Assembly Guide

32"x58" Cushion Storage Box

Tools Needed

Cordless Drill

#2 Square Drive Bit
(Included)

Tape Measure

Hardware Included

Step I-Side Attachment

A. Begin by laying back panel flat on floor. (Front panel should have Berlin Gardens label attached). Fasten Gas Cylinder brackets to left and right sides using 3-1" Screws (B) per bracket as shown. *NOTE: Bracket placement has predrilled holes for screws.*

Gas Cylinder Bracket

B.

Side Attachment Detail

Place left side against back ensuring that all edges are even and fasten using 4 - 2" Screws (D). Repeat on other side. *NOTE: Left and right sides are labeled with stickers. Ensure that stickers are towards back.*

Ensure these edges are even before attaching

C.

Inside Angle Attachment Detail

Fasten inside using 1-1/4" screws (C). Repeat on other side.

Step 2- Front Panel Attachment

Step 3-Bottom Attachment

Step 4-Top

Begin by setting the above assembled piece upright. Next set the top with the hinge side towards the back on top of the assembled piece then ensure the top is evenly spaced on both the right and left side and fasten the hinge to the back. Using 3/4" screws. (A)

Step 5-Gas Cylinders

Have one person hold open the lid while a second person pushes the bottom of the cylinder onto bracket until you feel it click into place. To ensure it is properly secured make sure you can not remove the cylinder by pulling backwards on it. Push the top of the cylinder onto the bracket that is attached to the aluminum frame and ensure it is properly secured. Repeat on opposite side. Your Cushion Storage Box is now complete! NOTE: *Bottom half of cylinders are thinner than top half.*
