When ordering, please state whether the closet is required with lugs or without. If outlet is desired prepared for wiped-joint, add 9/6.

Image above is taken from the 1897 Adamsez brochure.

# Origins of Adamsez

Founded in 1880 by M.J. and S.H. Adams, Adamsez began life as engineers, designers and manufacturers of ceramic sanitary products.

Based in Newcastle-upon-Tyne (while keeping offices and showrooms in London) the firm was for many years owned and run by members of Adams' own family. Using fireclay drawn from the family owned mine at Scotswood, the company used both continuous and intermittent kilns to produce ceramic sanitary ware of the utmost quality.

The firm went from strength to strength and in 1954 Adamsez won the Gold Medal at the tenth Triennale in Milan, a feat that was repeated six years later.

# Finest Handmade Baths

- 1 Moulds skilfully made in-house
- 2 Hand sprayed for strength and additional thermal insulation
- 3 Individually hand polished
- 4 Feet attached and factory levelled
- 5 Vacuum formed from Lucite for finest finish
- 6 Hand consolidated with fully encapsulated baseboard
- 7 Precision engineered by skilled craftsmen
- 8 Crated or individually boxed for dispatch

Since 1880 the name Adamsez has been synonymous with the advancement of bathroom design and quality.

Now with the expertise of a new management team led by design engineers and manufacturing experts, this respected brand is set for enhanced development.

The expertise of the experienced and long-serving craftsmen who continue to sustain the company's reputation for excellence, is the foundation stone that gives our products their luxurious status.

Intelligent design can improve your life. At Adamsez, we solve difficult problems with what appear to be simple solutions developed over many years by our team of designers and engineers.

Close attention to detail sets our designs apart from the rest, creating a new benchmark for quality, performance and aesthetic appeal.

We create intelligent bathing systems and refine them with good design to help you choose the perfect bathroom.

# Why choose an Adamsez bath?

## Comfort Unlike Any Other

At Adamsez we want you to love your bath. That's why we have put such thought into designing tubs that are cleverly proportioned and skilfully formed to give you excellent shoulder room, which will give those tired muscles room to relax, superb depth to let lots of warm water surround you and maximum length to let you really stretch out. We haven't compromised on design, so you don't have to compromise on comfort.

## Lifetime Guarantee

All of our baths are made to the highest standard of excellence from the finest of materials and have a lifetime guarantee (12 year warranty for AdVance Luxury Collection and AdVance Premium Slimline Collection).

## Strong & Thermally Insulated

All of our baths are strongly reinforced for unsurpassed strength and additional thermal insulation. No other bath is better reinforced than an Adamsez bath.

## Finest Quality Feet

The integrity of our manufacture goes down even to the feet we use. Choose from beautiful solid wood supports or from a range of contemporary chrome or ball and claw feet. All of these are factory fitted and levelled for your peace of mind.

You can add a colour matched RAL number or any other coded paint to your bath feet, or alternatively our bespoke Painting Service can colour match any colour to your new bath and feet in a gloss, satin, matt or metallic finish.

## Superb Surface Finish

We only use acrylic to form our baths because it is the finest surface finish available. The benefits include being easy to clean, smooth to touch, excellent colour consistency and it will retain its finish over a lifetime.

## Wonderful Bathing Area

Our freestanding baths have generous shoulder room to allow those tired muscles to relax. They are really deep to let lots of soothing water engulf the lower parts of your back and they are long to let you stretch out.

# AdColour; Make me yours

**This is only a selection of colours that we can add to your bath.**

We can provide a Painting Service and add a colour matched RAL number or any other coded paint to your bath, or alternatively our bespoke Painting Service can colour match, for example a furniture or tile colour to your new bath in a gloss, satin, matt or metallic finish.

For more colours and bespoke finishes please contact us on 028 9081 7631 or alternatively visit us at [www.adamez.com](http://www.adamez.com)

# *AdStone Shower Trays*

by Adamsez

Modern Design –  
Straight, perfectly defined  
features, with a resin cover  
that gives the design of the  
bathroom a modern touch.

AdStone Shower Trays

**The stain resistant, anti-slip composition of an AdStone Shower Tray is practical and easy to maintain.**

AdStone Shower Trays are manufactured combining composite mineral and nanotechnology, in addition to the use of materials that favor the sustainability of the planet. It combines elastic resins with mineral fillers and a layer of the latest generation gel coat that result in products with greater durability and impact resistance, as well as significantly reducing their weight.

**CHARACTERISTICS**

**COMPOSITION**

Polyester resin and the latest mineral fillers

**OUTER LAYER**

Highly resistant, durable non-slip Gel Coat

**TEXTURE**

Antislip Class C3

Rectangular resin cover included on AdStone Rectangular Trays

McAlpine wastes supplied as standard with all AdStone Shower Trays.

McAlpine started making plumbing products in 1902 and the company is privately owned and still run by the same family today. Based in the United Kingdom McAlpine is actively involved in the production of quality products which are available from national and independent suppliers.

**70% Composite Mineral  
30% Resin**

**OTHER FEATURES**

- Sustainability
- Nanotechnology
- High quality materials
- Durability
- Weight reduction
- Higher resistance

**NANOTECHNOLOGY  
MORE RESISTANCE & LESS WEIGHT**

Application of nanotechnology to combine flexible resins with low-density mineral microparticles.

## Frequently Asked Questions

### How should the product be stored once it has been received?

It should be stored horizontally on a flat surface.

### How can the products be repaired?

Although they are very strong and impact resistant, we have repair kits available for our customers.

### Can the product be cut?

Yes, with a diamond cutting disc.

### How do you clean the product?

Neutral soap and water applied with a sponge should be used. Never use abrasive products or tools.

### What material should be used to install the products?

To stick and/or seal the products use MS flexible polyurethane sealant and/or neutral silicone.

## Cleaning & Maintenance Guide

### For regular cleaning use a universal cleaning agent with non abrasive properties, or any mild dish soap and water.

After each use the inner surface must be rinsed with water and cleaned with a cotton cloth. For more stubborn stains (grease, mildew, oil, paint or ink stains), use a mild abrasive cleaner. It may take a little more scrubbing to actually remove marks.

In order to maintain the aesthetics of a product it is recommended to use skin care oil once per month.

Stronger dirt must be treated with warm water, with gentle cleaning agents or a soap solution with water. Scratches on the surface may be treated with a rough sponge and then maintained with oil.

Limescale may be treated with a solution of water and vinegar.

The temperature of the water used to clean the washbasin must not be hotter than 70°C and for the bathtub and the shower tray it must not be hotter than 75°C. Cleaning products must not be used and care must be taken when using products with natural or artificial dyes. Before using a detergent on the product, try it first on a hidden spot. Inappropriate care of the product might damage it and void the warranty.

## Warranty

Our AdStone Shower Trays come with a lifetime year warranty according to the existing European regulations. The following circumstances shall void the warranty:

- Damage caused by misuse
- Unsuitable storage and handling of the product
- Incorrect use of cleaning products
- Inappropriate installation of the product

# Contemporary Baths

At Adamsez we want you to love your bath.

That's why we have put such thought into designing tubs that are cleverly proportioned and skilfully formed to give you excellent shoulder room, which will give those tired muscles room to relax, superb depth to let lots of warm water surround you and maximum length to let you really stretch out.

We haven't compromised on design, so you don't have to compromise on comfort.

## Lifetime Guarantee

All our baths within the contemporary range have a lifetime guarantee. This endorsement of our commitment to quality, designs and innovation will give you total peace of mind as you enjoy your Adamsez bath for years to come.

## Handcrafted Construction

As Britain's oldest and most respected bathroom company, we have been involved in combining the finest of materials with time tested expertise for longer than any other bath manufacturer.

The beautifully smooth and flawless high gloss acrylic inner is strongly reinforced and thermally insulated to give you a bath that is unsurpassed for quality and innovation.

## Adamsez Excel

For your additional reassurance we are pleased to offer Adamsez Excel as an optional extra on a range of our baths. Our unique Excel finish offers additional strength and thermal properties.

# Why choose Adamsez Contemporary?

At Adamsez we specialise in making the best baths in the market. Attention to detail in all we do sets our baths apart from the rest and sets a new benchmark for quality, innovation and design.

---

## *Britain's Oldest Bathroom Brand*

- Heritage stretching back to the 19th century
- Britain's oldest and most respected bath manufacturer
- Commitment to quality, design and innovation

---

## *Totally Rigid Structures*

- Exceptionally strong
- No creaks or movement
- Ideal for overhead showering
- Fully encapsulated baseboard

---

## *Thermally Insulated*

- Excellent heat retention
- Up to 8kg of GRP
- Hand applied thermal insulation

---

## *Adamsez Excel Option*

- High viscosity coating
- Additional thermal properties
- Additional strength

---

## *Really Generous Shoulder Room*

We understand what makes a great bath to give you a fantastic soak. That's why all our baths have really great shoulder room to let those tired muscles relax.

---

## *Excellent Depth*

All our baths have been designed to give maximum depth to let lots of soothing water engulf you. This also makes your Adamsez bath the ideal choice for a whirlpool.

## *Single-Ended Baths*

## *Whirlpool Systems*

**The ultimate bathing experience is the combination of a beautiful Adamsez bath with the added luxury of a revitalising whirlpool.**

Relax and enjoy all the benefits that whirlpool bathing brings.

Inigorating yet soothing, our high performance whirlpools can be fitted to many of our baths.

## AdFill

The AdFill can be used with any standard wall or deck mounted valves.

Valves shown in the image to the left are just for illustrative purposes only and do not come with the Round AdFill.

NB: If not using an Adamsez waste or filler please forward prior to system installation.

Round AdFill - Code B-RO

## Operating the Whirlpool System

### Adamsez 8 Whirlpool

Activate the system by pressing the single pneumatic push button. Select the required performance level by individually adjusting the air intake control button and water speed control button.

The directional jets can be adjusted by the bather to specifically target where you would like to receive the warm massaging effect of the whirlpool.

### Adamsez 12 and 18 Whirlpool

Activate the system by pressing the start button on the electronic control. At low speed, the whirlpool generates a gentle massage, but at the touch of the keypad, the system moves into turbo power for optimum performance.

A third button activates the pulsar effect which gives fully variable turbulence, alternating automatically between high and low level speeds. For total peace of mind, press the next key to activate the hygiene management system, which is a superbly integrated self-cleaning system.

A high quality halogen spotlight is available as an optional extra. Designed for user safety and appeal, the effect of the light will influence the whole bathing experience.

## Accessories & Technical Information

### Selecting your whirlpool bath

Adamsez offer a wide selection of beautiful baths that have been designed for your comfort and relaxation. Deep, spacious and with excellent shoulder room, an Adamsez whirlpool bath will provide you with the ultimate bathing solution.

### Caring for your system

With proper care and attention, your Adamsez bath should last you a lifetime. To maintain the high gloss finish on your bath, use only a soft cloth and warm soapy water. The hygiene management programme on the 12 and 18 whirlpools provides an excellent self-cleaning function for your system.

#### Underwater Light

The appealing tones of light reflecting in water create a relaxing and soothing mood in the bathroom. Why not enjoy an underwater light in your own whirlpool bath? This high quality LED underwater light has been designed for user safety and appeal. Available in chrome, the effect of the light will influence your whole bathing experience.

#### Controls

The individual controls on the Adamsez 8 whirlpool allow you to achieve great adjustability and performance. A single pneumatic push button activates the system while the range on the other two controls allows you to select the appropriate air intake level and water speed to suit your individual bathing requirements.

#### Electronic Controls

Both the Adamsez 12 and 18 whirlpools have an attractive electronic touchpad control for your convenience and ease of use. This sophisticated control allows you to select the desired level of turbulence at a simple touch and incorporates hygiene management, pulsar effect and underwater light option. So easy to use, yet so comprehensive in its functions.

#### Jets

The Adamsez 8 whirlpool has 4 jets neatly positioned down either side of your bath. The 69mm diameter jets are directional to enable you to target specifically where you would like to receive the warm massaging effect of your whirlpool. The other systems will be fitted with either 12 or 18 chrome jets 42mm in diameter. The jets are carefully positioned around the inner contours of the tub to ensure that your back and feet can specifically benefit from the stimulating yet soothing effect of hydro massage. These powerful jets allow for an exceptionally invigorating body massage.

Adamsez offer a wide selection of beautiful baths that have been designed for your comfort and relaxation. Adamsez whirlpool baths provide the ultimate bathing solution.

Brushed Nickel	OWF-BN	£158.43	£132.03

# Mono

*Mono L Panel (all sizes)*  
*Mono Front Panel (all sizes)*

The one-piece L-shaped side and end panel simply clicks into place on the bath, making installation speedy, easy and accurate. The pioneering click system means hassle-free access to plumbing and a beautifully sleek, seamless profile to complement the streamlined look of contemporary bathrooms.

As well as its clever design, the panel scores top marks for rigidity thanks to its sturdy construction. Made from high-strength 5mm acrylic-capped ABS, the panel is built to stand the test of time. Rigorous product development and testing ensures that the panel is an exact colour match to all Adamsez baths, and will not discolour over time.

Mono fits all the rectangular baths in the Adamsez collection, and is designed to fit both right and left configurations. For recess installation it is also available as a luxury front panel.

Blending distinctive designs with practicality for both classic and contemporary living

Drawing on many years combined experience in the industry, Aqualla offers a unique range of bathroom components, blending distinctive designs with practicality for both classic and contemporary living.

Our Adamsez baths work seamlessly with Aqualla products and many of the images throughout this brochure have been created with the Aqualla products mentioned below.

Coordinating accessories are also available in Chrome, Matt Black, Brushed Nickel and Brushed Brass. Adamsez bath waste and overflow finishes can be factory fitted to match Aqualla Kylie Brassware finishes on specific baths - Price available on request.

# Our Sustainability Journey

We are making small steps to meaningful change by actively seeking ways to reduce our carbon footprint.

## PROCESSES

- **Carbon Balanced Brochure Production**  
With this brochure alone, we have balanced through **World Land Trust** the equivalent of 3,095kg of carbon dioxide and helped protect 591m<sup>2</sup> of critically threatened tropical forest
- Introduction of **QR Codes** to help encourage digital brochure use
- Use of **plastic-free solutions** in packaging and warehousing

## PRODUCTS

- New product ranges designed with water-saving devices as standard, achieving **Green Band EU Water Labelling**
- **New retrofit water-saving aerators** help reduce water consumption on Aqualla's showers and taps

## PEOPLE

- Long term support and sponsorship of local charity initiatives
- Health and Wellbeing initiatives to encourage healthy body and healthy mind
- Culture of togetherness and teamwork

Our commitment to a more sustainable future means that our journey will continue to evolve as we work toward reducing our carbon footprint.

Let's work together to make things better.

 **ADAMSEZ**  **AQUALLA**
