“To be the leading supplier of innovative, creative solutions which make bathrooms beautiful, whilst making a substantial difference to the lives of our people, partners and the world we live in.” HiB's Vision

At **HiB**, we've been making a difference to bathrooms for more than 30 years. From the very beginning of our journey, we have been dedicated to providing products which not only catch the eye, but also break new ground. From Bluetooth® capability to USB integration, our range has come a long way since 1990, but our commitment to making bathrooms beautiful has never changed.

HOW **HiB** MAKES THE DIFFERENCE...

A home for bathroom **heritage**

When Chairman Warren Ginsberg first launched the Home Improvement Bureau, now **HiB**, back in 1990 his mission was clear; to provide quality bathroom solutions with unrivalled customer service. While **HiB** has grown, our roots remain deeply in our bathroom heritage and we continue to make a difference to our customers' homes using our years of expertise and experience, after all, what we don't know about bathroom mirrors, cabinets, furniture and accessories isn't worth knowing.

Pioneering **innovation** through design and technology

HiB is innovation, it's in every component of every range we've ever designed. We're committed to our continuous pursuit of new, pioneering ideas, changing the way we all think about bathrooms and the part they play in our lives.

We're proud that our designs have been recognised with a hugely prestigious Royal accolade for Innovation, through a **Queen's Award for Enterprise**. It's also no coincidence that our distribution centre is named 'Inspire House', we've got a collective passion for progress that runs through the heart of all that we do and drives us to develop new innovative products for our customers.

Creating your **beautiful** bathroom

Our new product development and design teams have their eyes firmly focused on creating new ranges that celebrate the latest trends but also have a timeless, enduring quality. Many **HiB** products have been designed to complement each other with matching finishes, a range of sizes and accessories to complete the look. Whether you're looking for classic contemporary or want an industrial edge for your bathroom, you'll find your style with **HiB**.

Zen Glass Shelf (page 66) shown with Isoe 60 (page 60)

FIND YOUR PERFECT LIGHTING WITH **COLOUR TEMPERATURE CHANGING** ILLUMINATION...

Warm White - 2700K

For a soft, soothing glow, opt for Warm White. The mellow tones of this setting create a sense of calm for gentle relaxation. Perfect for unwinding in the bath or for your pre-bed routine.

Natural White - 4000K

Natural White is the best representation of natural daylight, for a truer, more accurate reflection. This neutral shade is ideal for tasks where precision is required, such as shaving, shaping your eyebrows and applying make-up.

Cool White - 6000K

The fresh, bright hue of Cool White is designed to invigorate and energise you. It's the perfect colour temperature for your morning routine, helping you wake up and prepare yourself for the day ahead.

OUR COMMITMENT TO **SUSTAINABILITY**

Becoming more environmentally-friendly and reducing our carbon footprint is hugely important at **HiB**. From the sustainably sourced paper used for this product brochure, to operational practices applied across our sites and the products we produce, we're continuing to work towards our ultimate goal of becoming carbon neutral.

Right through our 30 year history, we've made decisions with the environment, our employees, our suppliers and our customers in mind. Whether that is from improving our spare and replacement parts provision to ensure the longer life of repairable products or installing solar panels at our Inspire House Distribution Centre to reduce energy consumption, we've always tried to make positive changes in pursuit of our goal.

By making these improvements, we aim to reduce the environmental impact of **HiB** and make a substantial difference to all **HiB** employees, partners and our customers.

FIND YOUR MIRROR

Your mirror is – quite literally – a reflection of you and your style aspirations. The right mirror can create the illusion of space, enhance your lighting scheme and deliver the look you want for your bathroom.

Everyone has a different idea of what makes the perfect bathroom. That's why each HiB mirror has its own distinctive features — so you're sure to find one that suits your aesthetic and meets your specific needs. Whether you can't live without your playlist, like your lighting 'just so', or always have a device to charge — we have a mirror for you.

Rubin 60 Brushed Brass - Warm White

Rubin 60 Brushed Brass - Warm White

Rubin 50 Black - Cool White

RUBIN

Rubin's unique, contemporary design offers a distinctive style, while also providing exceptional practicality. Equipped with advanced features, this mirror offers more than just reflection.

Rubin includes the latest heat pad technology, which covers more than 75% of the mirror's surface and reduces a greater area of condensation, further enhancing visibility.

The illuminated rectangular frame features colour changing technology and three brightness levels, which is all operated using touch-sensitive controls that allow effortless adjustment of brightness, ensuring the perfect amount of light for any task.

Solas 60 Brushed Brass - Warm White

Featuring Atto Black accessories - see page 88

SOLAS

Solas offers light blending and colour temperature changing technology for a level of illumination that is second to none. The mirror features a circle of LED light, which is offset from the surface of the mirror. This provides optimal facial illumination, comparable with the make-up mirrors used by professional stylists. Find the perfect hue for precision tasks, such as shaving or applying make-up — or choose a shade that complements your interior design.

The circular LED light frame is available in chrome or brushed brass with mirrored sides, or in a cutting-edge industrial black. Solas can be hung landscape or portrait to suit your bathroom.

Solas 60 Black - Warm White

Solstice 80 Matt White - Cool White

SOLSTICE

For a designer look that works in a classic or contemporary setting, consider **Solstice**. This statement mirror is available in three finishes, an industrial matt black, brushed brass and matt white and includes a feature hanging strap. The bold style is complemented by a halo of ambient backlight and a ring of colour temperature changing LED lighting, which offers customisable frontal illumination. Internal heated pads help to reduce the condensation on the glass, for a flawless and functional bathroom centrepiece.

Ether 60 - Cool White

ETHER

Ether's clever design fulfils all your lighting needs. Ambient lighting, on the sides and base of the cabinet, creates a radiant halo effect on your wall. Simultaneously, a precision line of super bright LED light crowns the mirrored doors, giving you defined light for personal grooming or applying make-up.

You can adjust the ambient light, from cool white to a softer warm white, depending on your mood or bathroom scheme.

Inside the cabinet, there are integrated USB chargers and sockets for shavers. A removable silicone mat keeps your shelves smear-free.

CEILING LIGHTS

Complement your luxurious bathroom with a classic, minimal ceiling light. Our range offers you the choice of LED or conventional energy efficient bulbs. There are five designs to choose from — four circular and one square.

Hush - page 110

FIND YOUR VENTILATION SYSTEM

When you invest in a premium bathroom, you want the assurance that it will continue to look fresh and new in the years to come. This is why a quality ventilation system is advised.

A build-up of steam and poor ventilation can cause a number of problems. These range from unsightly mould, to problematic damp and serious structural damage.

With these concerns in mind, we developed a range of design-led ventilation products that prevent an unhealthy build-up of condensation without compromising your style.

Scan for videos and further information on our ventilation ranges.

Key features

Complete kit includes fascia, inline fan, 3 metre flexible ø10cm ducting, external fixed grille and steel hose clamps

Cyclone - Powerful 210m³/hr extraction rate with low noise level of only 32dB

Turbo - 137m³/hr extraction rate with low noise level of only 37dB

Optional warm or cool white LED illumination*

Adjustable run on timer. Select from 2 up to 30 minutes of extraction after the main light is turned off

IPX4 rated

*Replacement lamps available from HIB

The inline motor is remotely sited within the loft space and is connected to the fascia and external wall grille by the supplied flexible ducting.

Scan for videos and further information about our **Cyclone** ceiling fans.

Scan for videos and further information about our **Turbo** ceiling fans.

CYCLONE AND TURBO

CEILING FANS

This high-powered inline fan comfortably clears condensation in a larger bathroom. **Cyclone's** slim, flushmounted grille sits discreetly in your ceiling and is quiet enough to maintain the relaxing ambience of your space.

Power meets precision in **Turbo**. A powerful electric motor effectively removes condensation to prevent damp, mould and unpleasant odours. The fan runs quietly in the background and has a built-in timer, so you can set it to run for as long as you need.

Available in a chrome or white finish with optional warm or cool white LED illumination.

HUSH WALL-MOUNTED FANS

With a running volume of just 25 decibels, **Hush** is the quietest fan in our range.

This fan can be ceiling or wall mounted, giving you the freedom to decide which option works best for your space without compromising your style.

There are three different models in the range: Safety Extra Low Voltage (SELV), with adjustable timer, or with adjustable timer and a clever humidity sensor that activates the fan automatically, before condensation has time to build.

Choose from White, Chrome or Matt Silver.

BREEZE WALL-MOUNTED FANS

With its sleek design and whisper quiet motor, **Breeze** is barely even noticeable. Yet its powerful, efficient performance keeps your bathroom perfectly ventilated and moisture-free. There are three different models in the range: Safety Extra Low Voltage (SELV), with adjustable timer, or with adjustable timer and a clever humidity sensor that activates the fan automatically, before condensation has time to build.

This versatile unit can be ceiling or wall-mounted and comes in a choice of three finishes: White, Chrome or Matt Silver.

Key features

- 3 meters of flexible Ø10cm ducting
- A choice of brown or white external fixed grille
- 2x steel hose clamps
- Compatible with:
Hush - Page 110
Breeze - Page 111

Accessory Kit White - 32400

£23.25

Accessory Kit Brown - 32500

£23.25

ACCESSORY KITS

These kits include 3 metres of flexible ø10cm ducting, a fixed grille and x2 steel hose clamps, which are all compatible with our **Breeze** and **Hush** range of ceiling and wall fans.

Available in two colour finishes.

LIGHTING REGULATIONS

All installations must comply with guidelines which are based on a zonal concept. The diagram below illustrates this concept and must be followed to ensure the safe installation of electrical appliances in the bathroom. These regulations apply to domestic installations only. Installations must be made in accordance with the current IEE wiring regulations and relevant building regulations. HiB recommends that all electrical bathroom products should only be fitted by a suitably qualified, Part P registered electrician.

Zone 1 refers to the area above the shower up to a height of 2.25 metres and requires a minimum rating of IP44 or higher and if the fitting is 240V a 30ma RCD must be used to protect the circuit.

Zone 2 covers an area 0.6 metres wide immediately next to, and all round zone 1. Wash basins should also be treated as zone 2. The minimum rating here is IPX4.

Outside Zone has no special requirements, unless water jets are likely to be used for cleaning purposes.

The IP (Ingress Protection) Standard describes a uniform system for classifying the degrees of protection provided by the enclosures of electrical equipment.

For example, if a bathroom's light is rated IP65, then the 6 means its 'Protected against Dust' and the 5 means its 'Protected against Water Jets' from a shower, tap or cleaning processes from any direction.

First numeral - protection against ingress of foreign bodies, E.G. Tools, dust, fingers, etc.

0 No protection	1 Protected against solid objects with a diameter of 50mm and over (e.g. Accidental insertion of hands).	2 Protected against solid objects over 12mm (e.g. jointed fingers).	3 Protected against solid objects over 2.5mm (tools).	4 Protected against solid objects over 1mm (small wires).	5 Protected against dust - limited ingress permitted (no harmful deposit).	6 Totally protected against dust.
---------------------------	--	---	---	---	--	---

Second numeral - protection against ingress of liquids.

0 No protection	1 Protected against drops of condensed water. Drops of condensed water falling on the enclosure shall have no harmful effect.	2 Protection against drops of liquid. Drops of falling liquid shall have no harmful effect when the enclosure is tilted at an angle up to 15 degrees from the vertical.	3 Protection against rain. Water falling in rain at an angle equal or smaller than 60 degrees with respect to the vertical shall have no harmful effect.	4 Protection against splashing. Liquid splashed from any direction shall have no harmful effect.	5 Protection against water jets. Water projected by a nozzle from any direction under stated conditions shall have no harmful effect.	6 Protection against conditions on ship decks (deck equipment). Water from heavy seas shall not enter the enclosures under prescribed conditions.	7 Protection against immersion in water. It shall not be possible for water to enter the enclosure under stated conditions of pressure and time.	8 Protection against indefinite immersion in water under specified pressure. It shall not be possible for water to enter the enclosure.
---------------------------	---	---	--	--	---	---	--	---
