50_{MM} SHOWER TRAYS

82

1 DOOR QUADRANT

An ideal solution for smaller bathrooms as it will sit beautifully in the corner of your bathroom, with an unobtrusive sliding door. A 'quick release' door system is included for easy access cleaning. Also available in an offset shape for a larger showering area where space allows.

- 1950mm High
- 8mm Glass thickness
- Chromed brass handle
- Union Care coated glass
- 'Minimal' low profile seals
- Smooth 'quick release' roller bearings
- 25mm vertical adjustment in each profile
- Reversible for left or right hand fixing

UNIONCARE

Simulation of glass surface magnified

All glass surfaces have a non smooth finish which can attract the build up of particles. Union Care provides an invisible protective film which seamlessly seals the surface to ensure this build up does not bond to the glass.

UNTREATED TREATED WITH **UNIONCARE**

Type	Size	SKU	Aperture	Adjustment	RRP

FRAME
SLIDING DOOR
 FOR LEVEL ACCESS

Make your bathroom totally inclusive with this sliding door, as the bottom rail can be minimal or completely barrier free, creating true level entry access. The design and functionality exudes luxury with the ultra-smooth running door action, generous door opening, stylish chromed brass components and an elegant feature handle.

- 1950mm High
- 8mm Glass thickness
- Optional bottom rail
- Union Care coated glass
- Easy release door function
- Optional side panels
- Left or right handing must be specified
- Tray or straight to wetroom floor

Extension Profile	1950mm (High)	R8EXT	-	-	£89

This outward opening door takes up minimal external space due to the positioning of the hinge point, meaning it protrudes less into the bathroom, which allows for the close positioning of bathroom fixtures and fittings. The simplicity of the Pivot Door creates a supremely efficient space saving solution.

- 1950mm High
- 8mm Glass thickness
- Chromed brass hinges and handle
- Union Care coated glass
- "Minimal" low profile seals
- Door must be hinged from the wall
- 25mm vertical adjustment in each profile
- Reversible for left or right hand fixing

10MM
WALK-IN PANELS

The perfect way to create your own walk-in shower enclosure, walk-in panels offer a cleaner more minimal look than the traditional shower enclosure. Union's walk-in panels can be fitted to our standard shower trays or straight to the floor to create a true wetroom.

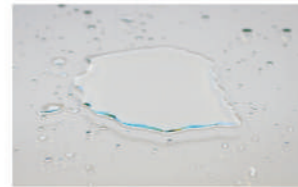

We provide a number of panel sizes and options, to help you create your perfect space. Bracing bars are recommended for use with all walk-in panel sizes to add extra strength and rigidity.

- 10mm Glass thickness
- Union Care coated glass
- Height: 2000mm (Excluding bracing bars)
- Reversible

All glass surfaces have a non smooth finish which can attract the build up of particles. Union Care provides an invisible protective film which seamlessly seals the surface to ensure this build up does not bond to the glass.

SHOWER TRAYS

Handmade in the UK, Union shower trays come in various shapes and sizes and are made of cast stone with a Lucite sheet skinned over the tray.

This gives a durable finish and a rigid base. Remember - you may require a riser kit if the tray is going on a concrete floor or the plumber has an installation issue with your floor.

Riser kits are easy to fit and come with matching acrylic panels.

(* Items are non-stocked and can take up to 7 working days to arrive, waste position may vary)

SHOWER PANELS

Union Shower Panels are a fully waterproof shower wall, produced from high pressure laminates with a proven waterproof core. The uniform structure of the core, the smooth surface and gluing system make them the ultimate panelling system for showers, bathrooms and wet room applications.

Available in a range of 8 trend decors. All panels are manufactured and stocked in the UK. 100% Waterproof Panels, and fully comply with British Standard Fire Rated Class 2 surface spread of flame.

High Pressure Laminate (HPL) bonds to a core using a PUR adhesive, ensuring a completely waterproof surface meeting the EN438 requirements.

A balancing laminate is then bonded to the reverse of the panel, ensuring all panels will remain structurally stable, watertight and waterproof.

Dimensions: 2400 x 1200 x 11mm | Weight: 24kg

All wet wall panels are available in either square edged or tongue and groove edged.

SQUARE
EDGED

OR TONGUE & GROOVE
EDGED

Installation

For adhesive please apply one 310ml cartridge of wall panel adhesive per panel, in a dot and dab pattern.

- We recommend that you begin with an internal corner and work outwards.
- Apply a continuous bead of sealant to the reverse of the internal trim and fix in position. Use a spirit level to ensure it is plumb.
- Apply a continuous bead of sealant into an end cap trim. Fix the trim to the edge of the panel. There should be enough sealant that it spreads outside the trim. Wipe off excess sealant.
- Apply a continuous bead of sealant into one recess of the internal trim. There should be enough sealant that it spreads outside the trim. Wipe off excess sealant.
- Apply sealant to the wall in a series of waves from top to bottom of the area where the panel will be affixed.
- Place 3mm high spacers along the back edge of the shower tray to create a 3mm clear gap at the panel base to be filled with sealant.
- Position the panel above the 3mm spacers and slide into the internal trim recess. The sealant should envelope the panel. Wipe away excess sealant. Repeat steps 3 to 7 for the second panel.
- Apply sealant to the bottom joint of the panels and seal all end cap edges.
- Cut-outs for shower heads and the like require an expansion gap of at least 3mm. After fitting the boards these gaps must be filled with sealant.
- Leave for 24 hours before use.

Prices

It is our policy to offer products at the most reasonable price possible, however, if due to circumstances beyond our control, we deem it necessary to alter any advertised price, we reserve the right to do so without prior notice.

Errors & Omissions

We aim to maintain the highest accuracy in our brochure, we make no claims, promises or guarantees about the absolute accuracy, completeness or adequacy of the contents and expressly disclaim liability for errors and omissions in the contents of this brochure.

This includes pricing, product descriptions and measurements. We reserve the right to correct any errors or omissions, and to change or update information at any time without prior notice.

Images

All sizes and measurements are approximate, we do however try to ensure that all sizes, measurements and images in this brochure are as accurate as possible.

All pictures are for illustrative purpose only, and may not exactly match the product itself. Colours may vary to those illustrated and can look slightly different in real life due to lighting etc.

We never knowingly publish misleading or incorrect product descriptions or images.

Installation

Always make sure you are using a qualified bathroom installer. If you have any concerns about fitting, always speak to one of our sales advisors before undertaking any work

VAT

The price of a product includes VAT (where applicable) at the applicable current rate chargeable in the UK for the time being.

However, if the rate of VAT changes between the date of your order and the date of delivery, we will adjust the VAT you pay, unless you have already paid for the products in full before the change in VAT takes effect.
