WORLD OF BOSKA

Food Tools for Life

WELCOME TO THE WORLD OF BOSKA

Since 1896

At BOSKA we make Food Tools for Life and we believe quality is sustainability. Our goal is to design products that last a lifetime. It all began near Gouda, in Holland, where blacksmith Willem Bos made his first cheese tools for the local farmers. From that day on it's been our family's tradition to create fun & smart tools so you can enjoy Cheese, Pizza, Chocolate, Meat & Veggies to the fullest. We love it! So whether you're cutting, melting or presenting, we'll help you create mouthwatering food and a party on your table. Enjoy!

Fourth generation owner of BOSKA,

Martijn Bos

Food Tools for Life

We support Justdiggitt to compensate the CO2 emissions we can not offset yet.

Scan for our environmental and social impact program.

Quality = Sustainability

Our collection consists of products that are primarily made of natural raw materials like stone, steel and wood. Unfortunately, not all of these resources are sustainable. So, we make the most of our natural resources by creating products that last a lifetime.

BOSKA Food Tools are designed to be smart and tough tools that maintain their beauty and quality throughout their lifespan. We promise quality and make every effort to offer a lifelong guarantee. We also want to have a positive impact by making products affordable to as many people as possible.

We are a certified
purveyor to the
royal household

"By appointment to the court of the Netherlands" is an honorary title awarded by the king to small and medium-sized businesses that occupy a very important position in the region.

A real crowning achievement!

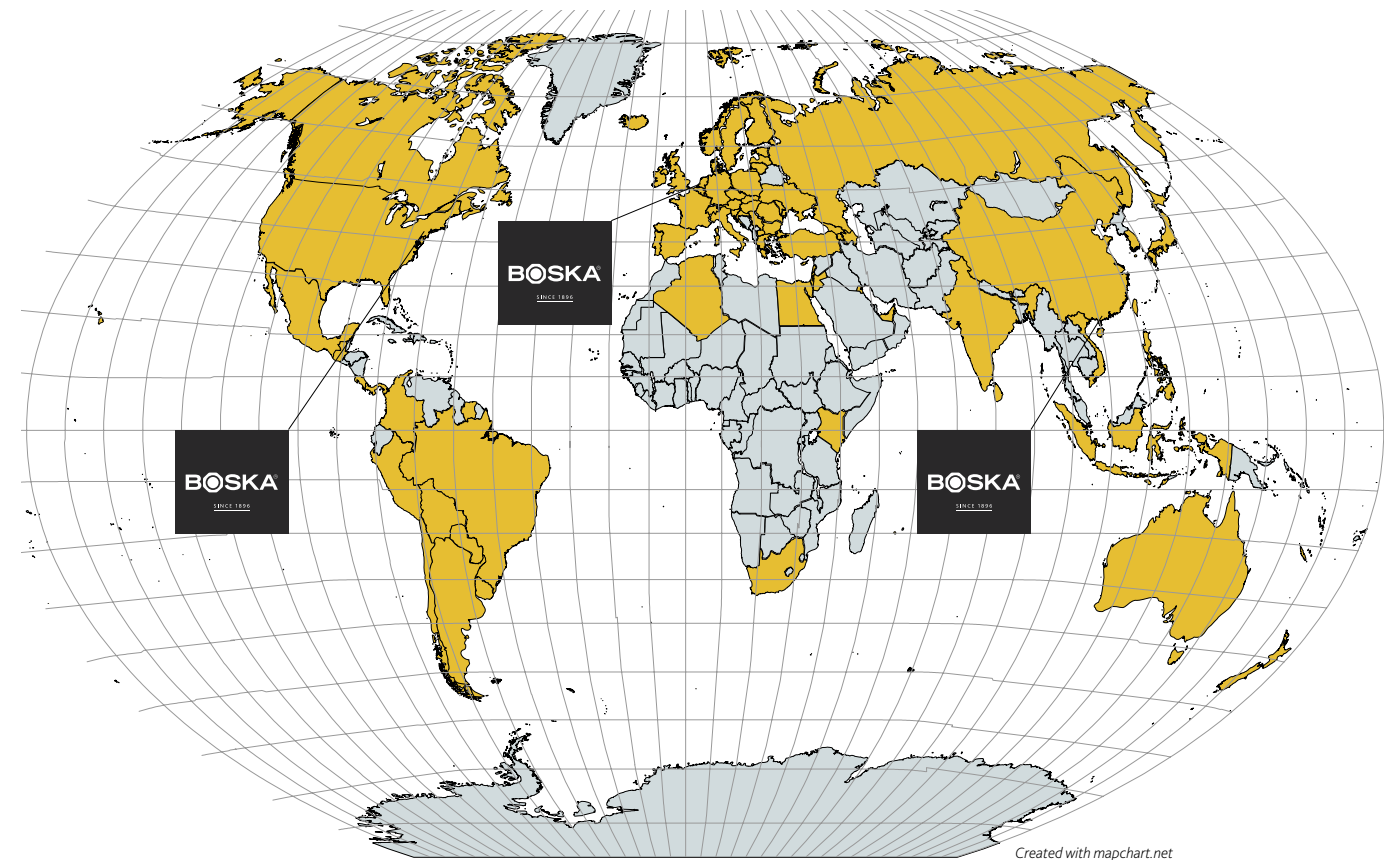

Proud to be B Corp™

BOSKA has been a certified B Corp™ company since December 2022. This certification shows that BOSKA prioritizes people, the environment and society. Together we aim to have a positive impact on the world around us. B Corp™ is one of the most respected certifications with respect to sustainability.

Becoming a B Corp™ is just the beginning because, as a company, we work hard every day to help make positive, lasting changes. Each and every day, we endeavor to improve ourselves, which is why this philosophy is reflected in everything we do, from our employment policy to the initiatives we join that contribute to a sustainable society.
