○ Why Sprayology?

Sprayology is an innovative consumer brand that develops and markets holistic products to promote beauty and well-being.

We simplify wellness by providing effective formulas that are convenient, easy to use, and the most fast-acting holistic products available.

WELLNESS SIMPLIFIED

When you feel great it shows, and that starts from the inside out. Sprayology was born of this truth and has simplified the process so it is easy to be consistent.

WELLNESS GUARANTEE

For over 20 years Sprayology has been offering the most effective holistic formulas available. Sprayology is so confident in our products effectiveness that we guarantee them in writing.

20-60% STRUGGLE

Studies report 20-60% of adults cannot swallow pills. Sprays are additionally beneficial for people with stomach & digestive issues, the elderly, and those who have had gastric bypass surgery.

Note: All Sprayology formulas are gluten lactose & soy free.

Why Sublingual Vitamins Are Better?

Our pioneering nutritional supplements are sprayed into the mouth, which makes taking your vitamin easy and yummy to do EveryDay. Sublingual vitamins absorb up to 90% of the nutrients they come in contact with compared to about 10% in pill form.

When you take sublingual vitamins, they bypass your gut and go straight into your blood-stream, this allows your body to absorb and use them faster

EveryDay Multi

This on-the-go formula contains 14 nutrients to give your body what it needs to stay healthy and energized with no upset stomach. Ages 4 and up
Citrus-Berry Natural Flavor • Lifestyle

EveryDay Sunshine

Vitamin D3 + K2 formula supports bone health immune function, mood, blood sugar levels, and heart health. D3 and K2 work together synergistically and ensures that calcium is deposited where it is needed.
Orange-Mango Natural Flavor • Lifestyle

EveryDay Energy

B-12 and Folate are essential nutrients for energy and believed to support overall health in many ways. This formula uses Methylcobalamin B-12 and Folate to increase absorption and effectiveness. Essential for vegans, people who drink alcohol, take certain medications and who have a high stress lifestyle.

Sharing the LOVE Partners

"I truly love and believe in what Sprayology represents, the results and the integrity behind the company. My spa has successfully carried this homeopathic wonder for the past 18 years and still going strong! Our facility is committed to holistic care and Sprayology offers us numerous solutions to common conditions, and they work.

We trust the product as Ellie, the woman behind the brand is ethical, and true to form. Not only does her brand deliver, in addition, Ellie takes incredible care of our team with on going education and above and beyond vendor service. I couldn't imagine my spa business without Sprayology (and Ellie) I wouldn't want to either "

5 STARS

Energy and Focus

Been using the Every Day Energy and EveryDay Sunshine for a little over a week now. **Surprised to see a difference so fast. Clearly feeling more positive energy but also, and most notable,** finding it SO MUCH easier to keep focused which had become an almost daily battle since COVID broke through. Thanks Sprayology!" No Morning Grogginess

I typically hate the way **sleep pills make me feel hungover in the am. This product never makes me feel like that!** I take 2-3 sprays before bed if I'm having trouble sleeping and I sleep, normally and wake normally! Its amazing! I highly recommend. web customer Jbapples

Life Protector

I'm 68 years old and work in Customer Service in a grocery store. **I've been taking ImmunoBooster and believe it's one spray that is keeping me well.** Gratefully, my immune system remains strong, particularly during 2020 when the health of our world changed. Web customer Debi B

We have been lucky enough to carry Sprayology since the day we opened our spa - 15 years ago. The support and training that the founder, Ellie Whalen provides is some of the best that I have found in my 23 years in the spa industry. She is passionate and very engaging, she creates an excitement for our staff and clients and we have held many fabulous events with her over the years.

Sprayology continues to fly off of our shelves for a number of reasons, it's effective and different than most home care options. Many of their formulas work within minutes, which we highlight by using before and after spa treatments to capture the client's attention.

Ellie is a brilliant business woman who thinks of everything, her floor display is attractive, compact and makes merchandising a breeze.

Sharon Schmit -THE pearl modern spa and boutique

I have worked with Sprayology for many years now. It is a valuable partnership for our retail boutique as it helps the team meet the overall wellness goals of their guests. My team loves the trainings, and many of them personally use a multitude of different spray formulas from Sprayology.

Our guests appreciate the generous return policy, and is a helpful selling feature. If for some reason they are unsatisfied with their recommendation they are secure in knowing that they will be taken care of.

I value being able to offer comprehensive solutions to our guests on their wellness journey.

FAQ'S

What is homeopathy?

Homeopathy is a safe, gentle and natural system of healing that works with your body to relieve symptoms, restore balance and improve your overall health. Because very small doses are used, this can be accomplished without negative side effects.

Homeopathy is the 2nd most widely used medicine in the world and is regulated by the FDA.

What does the product type mean?

We classify our formulas as Lifestyle, Symptom Relief or Hybrid. Lifestyle formulas are recommended for daily use. Symptom Relief formulas are fast-acting, use-when-needed. A Hybrid can be used daily or when experiencing symptoms.

Is it safe to combine several sprayology products?

Yes. Spraying different products at the same time will not decrease effectiveness. We recommend taking the vitamin formulas at a different time than the homeopathic formulas.

Can Sprayology products be taken with pharmaceutical medicines or other natural supplements?

Yes. There are no known drug-to-drug interactions or contraindications with homeopathy.

How long should I take a formula before I notice an improvement?

This is formula and individual dependent. Our Symptom Relief formulas can begin working very quickly (within a few minutes), while our Lifestyle formulas may take 2 weeks.

When I feel better, should I keep taking the formula?

This is formula and individual dependent. For example: Stop using Cold + Flu Relief after your symptoms are all gone. Lifestyle formulas are recommended for daily use unless you no longer have the need for them.

Can I take if I am pregnant or nursing?

Although Sprayology's homeopathic formulas have no known negative side effects, we recommend you consult with your health care professional prior to use while pregnant/ nursing.

Is the alcohol in the homeopathic formulas safe?

Our vitamin formulas are alcohol-free. We use a 20% solution of organic alcohol in our homeopathic formulas to preserve them naturally. This represents approximately one-half tablespoon of alcohol over a month if two sprays are taken three times per day.
