

Live Edge Black Walnut Charcuterie Board

American Black Walnut

sourced from Wisconsin, black walnut is regarded as the most prized of all American hardwoods, strong and stunningly gorgeous with rich browns

Organic Wood Oil

naturally brings out the color of wood, penetrates into wood fibers for deep nourishment.

Natural Live Edge

designed by nature.

Sapwood

the light colored portion of a tree trunk where water passes from the roots to the leaves of the tree and excess food is stored.

Routed Rope Notch

designed to allow the board to sit perfectly flat while the rope passes through.

length:
15"

Jute Rope

made from natural vegetable fibers this earth toned 16-ply rope maintains a natural minimalist elegance.

Brass Ferrule

hand cut from 5/16" brass tubing and meticulously hand crimped to prevent any future fraying.

Sanding Sponge

smooth out any rough spots with this 220 grit reusable and washable sanding sponge.

Branding Iron Mark

stamped by hand at over 600°F

width: 11"

easily accommodates a big spread.

Biodegradable Packaging

no brainer.

Heartwood

present on mature trees, the darker inner section of the tree, formed from "retired" sapwood, dense compounds accumulate here to give the tree its strength and distinctive rich color.

Live Sawn Slab

the best technique to use when milling prized timbers to highlight the entire range of the tree's unique characteristics.
