# Combination Flood – Water Temperature Sensor

A.   Double Stick Tape Strip

B.   Sensor Mounting Plate

C.   Probe Mounting Plate

D.   3V Lithium Battery

E.   Phillips-head screws

F.   Flood probe cord

G.   Flood probe
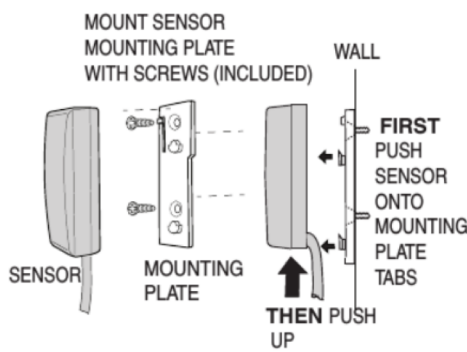

H.   Transmitter with integrated temperature sensor

## Battery insertion

1.   Insert the provided battery

2.   Close sensor by replacing cover

## Mounting the Sensor

Note:   Mounting the sensor can be done using the double sided tape strip or the provided screws and mounting plate (recommended)
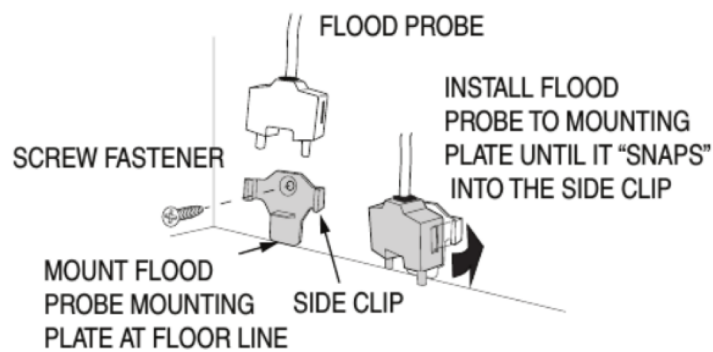

1.   Position the mounting plate onto the nearest wall

2.   Use the double sided tape or included hardware to fix the mounting plate in place

3.   Attach the sensor to the mounting plate, then slide it up to lock to the plate
