✓ No cross-linking chemical residue

Two Choices for Long-Lasting Relief
I-DROP® VET is the ideal lubricating solution for animals suffering from dry eyes.

Format size: 10 mL (3 fl. oz.) bottle
I-DROP® VET

Having trouble applying eye drops to your pet?
Here is a trick to make applying I-DROP® VET even easier!

1. Turn the cap counter-clockwise to open the bottle. Invert the bottle and squeeze it gently until a drop forms on the tip. This may take a few seconds as the solution needs to travel through the filtration system.

2. With the drop suspended at the tip, carefully bring the bottle above your pet’s eye and squeeze gently until it falls into the affected eye. If any residual solution remains on the bottle after use, simply flick it off with a brisk motion, replace the cap and close the bottle properly.

I-MED Animal Health innovates, manufactures and distributes products for the global veterinary medical and surgical eye care community.
