VET SHIELD™

Ideal for the protection of ocular surfaces following corneal surgery, trauma, ulcers & abrasions

✓ Permeable to most medications
✓ Non-refractive
✓ Bio-erodible

DISSOLVES IN 72 HOURS
VET SHIELD™

Bio-erodible collagen corneal shield

An ophthalmic corneal shield made of clear, pliable collagen designed to dissolve in 72 hours, forming a permeable, non-refractive protective barrier over the surface of the eye.

Ideal for the protection of ocular surfaces following corneal surgery, trauma, abrasions or ulcers.

Allows the injury to heal itself while protecting the cornea from further damage caused by the animal scratching at their eye.

One Box Contains

6 VET SHIELDS

I-MED Animal Health innovates, manufactures and distributes products for the global veterinary medical and surgical eye care community.
