SUNGLASSES

SPORTS & LEISURE RANGE 2020

EMBRACE THE GREAT OUTDOORS.

AND STAY AHEAD OF THE CURVE

Achieve peak performance in a pair of Eyelevel sunglasses.

Renowned for innovation in eyewear, the Eyelevel range is designed for sports performance and leisure. Protect your eyes with a variety of sunglasses tailored for your sporting needs.

Sports and leisure sunglasses are paramount for outdoor activities, shielding your eyes from dust, moisture, wind and ultraviolet radiation.

Continual UV light exposure can increase the risk of developing cataracts and macular degeneration. This is particularly dangerous when it comes to the damaging effects of snow blindness, a painful condition caused by overexposure to the sun's UV rays. The risk of snow blindness increases when you're near water, which is highly reflective in all its physical states.

Unlike your everyday sunglasses, the Eyelevel sports collection is geared towards preventing stray wind and harsh light from reaching your eyes.

When you're keeping active, you want a pair that enables you to have fun without the stress of shattering a lens, slippage, or snapping under pressure.

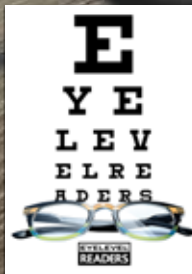

Durable, comfortable and reliable, our sunglasses are made for everything from angling, sailing and surfing to golfing, hiking and skiing. Best of all, you won't have to shell out a small fortune to keep your eyes in top condition. With Eyelevel, you can look the part while getting that boost of confidence to take you all the way.

Our polarized sunglasses, clip-ons and overglasses have the added benefit of eliminating harsh glare reflected off surfaces. Eyelevel's genuine polarized lenses contain a special filter, which blocks intense rays of reflected light that reduce visibility. Images appear sharper and clearer, while optimum safety is ensured. In addition, they allow you to see below the surface of the water, essential for fishing or sailing.

Polarized lenses are available in six different colours and offer the following benefits:

- Brown:** A perennial favourite, it absorbs bright sunlight to keep your eyes from tiring. Good for most weather conditions.
- Grey:** A popular lens colour, it provides a cooling effect for bright days. Best for sunny weather.
- Amber:** Absorbs blue light, enhancing contrast and providing a warm appearance.
- Sports Yellow:** A light enhancing colour, it brightens vision on an overcast day. Provides excellent contrast and depth perception even in the cloudiest conditions.
- Green:** Excels in a variety of light conditions maintaining true colour balance. Provides a soothing tone.
- Copper:** Outstanding for driving, improves contrast.

Polarized sunglasses offer excellent benefits both for outdoors enthusiasts and wearers for general use.

Whether you're at the tennis court or shooting range, biking the countryside or taking a leisurely drive, our 2020 collection contains the perfect pair for you. The world looks a lot finer through Eyelevel shades.

TECHNICAL DATA

Eyelevel Sunglasses conform to European standard EN ISO 12312-1:2013 and American standard ANSI Z80.3. Eyelevel Sunglasses provide comfort in very bright conditions due to our UV400 break resistant lenses which offer maximum protection from harmful UVA and UVB rays.
