 Local: 519-888-8184 Waterloo, ON, N2V 1A2

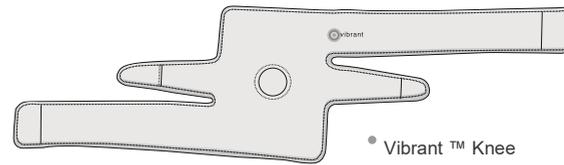

Before using the Vibrant™ Knee, please read this manual thoroughly and retain for future reference.

#### About Your Device:

Vibrant™ Knee is non-invasive solution for pain relief. Benefits may include:

- Pain and swelling reduction
- Increased range of motion
- Less reliance on medication
- Improved overall quality of life

This package contains:

● Charging cable

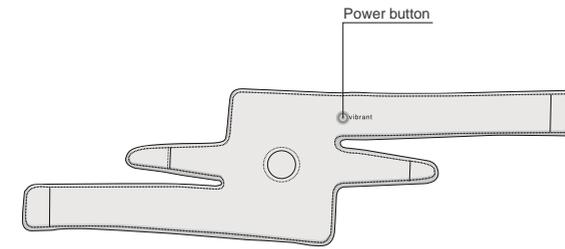

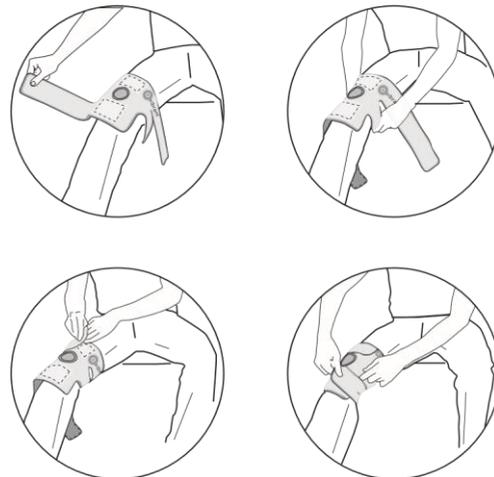

● USB adapter

#### First-time use:

Vibrant™ Knee comes ready to use for your first treatment, remove your device from its package and follow the instructions below.

#### Using your Vibrant™ Knee:

Follow the instruction below to wrap and secure the device around your knee.

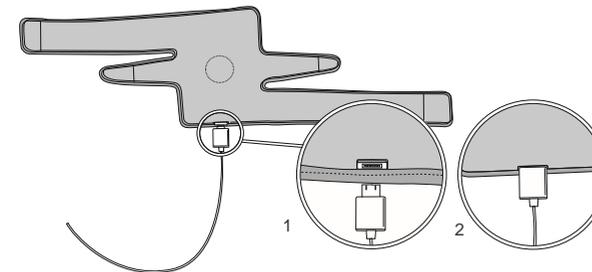

Turn the device ON by pushing the button located inside the Vibrant Logo on your device. Initial vibration will indicate that your device is ON and ready. After a short pause the 16 minutes treatment will start.

During the 16 minutes treatment, your device will alternate between 4 pre-defined patterns. Alternatively, the intensity and duty cycle settings can be adjusted through the Vibrant™ App in your smart phone or tablets. Please note this functionality is only available in Vibrant BLE versions.

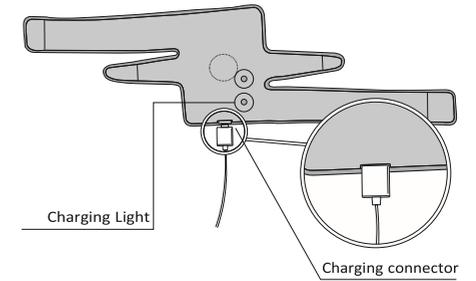

At the end of the treatment, the vibration stops automatically, and your device goes into sleep mode.

To extend the battery life turn the device OFF by pressing the ON/OFF button.

#### Charging instructions:

Insert the charger cable to the adaptor, and plug the charging adaptor into an electrical outlet.

- Red light ON: device is charging
- Green or Blue Light ON: device is charged

Please note that charging may take up to 90 min to complete if the battery is very low.

#### Using the Mobile Application:

Download the free mobile application to your smartphone or tablet and unleash the power of Vibrant™! Search for "Vibrant" in the Google Play Store, Apple App Store or Blackberry App World to download the App for free. Please note: Vibrant™ products do NOT require the app to work effectively, however we strongly recommend using the app for customized treatment. The Vibrant™ app allows you to create different profiles and personalize your treatment by adjusting the vibration patterns, speed and intensity. Please also note that **Vibrant™ app only works with Vibrant™ BLE version products.**

#### Connecting your device to the Application:

Please ensure that Bluetooth is enabled on your mobile device or tablet. After downloading and opening the Vibrant™ application on your mobile device, follow the instructions for setting up a user profile. Turn your Vibrant™ device ON. Once your device is ON, select "Begin Treatment" on the App and your Vibrant™ device will automatically connect to your mobile device.
