

1000004 Queen/King/California King Bed Frame Assembly Instructions

Parts Included

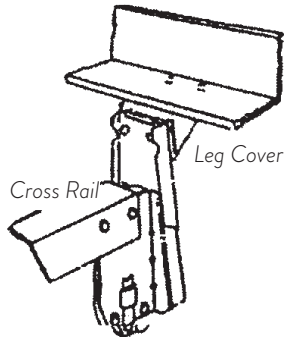

- Bed Frame Rails - 2
- Stem Glides - 6
- Sockets - 6
- End Caps - 2
- Center Rail - 1
- Bolts - 4
- Nuts - 4
- Cross Rails - 4
- Plug Locks - 4

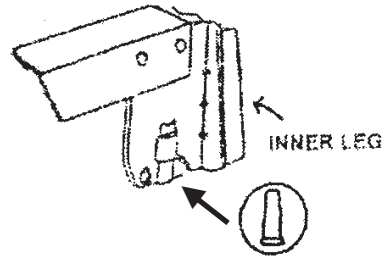

Instructions

1 Slide leg covers on bed frame rails over inner legs on cross rails.

Bed Frame Rail

2 Insert 6 plastic sockets into legs on cross rails and side rails. Insert glides into plastic sockets.

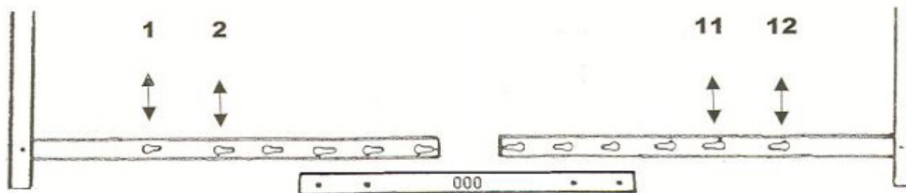

Leg Socket

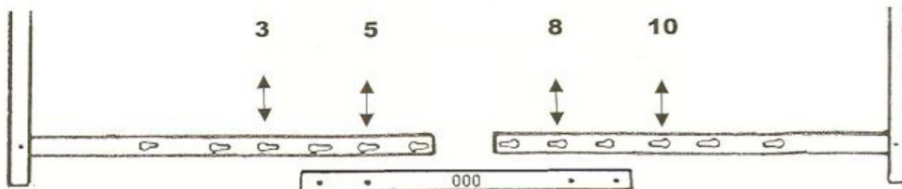

3 Find the keyholes on the cross arms needed for the appropriate size bed. See images below.

For Queen Size Beds

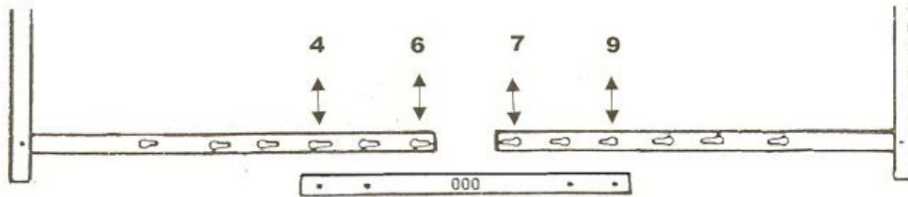

For California King Size Beds

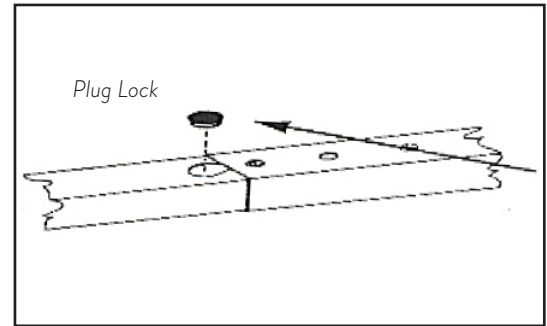

See King size on next page.

Step 3 continued

For King Size Beds

Insert rivets on extender rail into selected keyholes. Slide arms away from each other to lock the position. Then insert plug lock into keyhole at the end of the overlap. Repeat on the other side of the bed.

4 Position the center rail in the middle of the bed frame. Secure each end of center rail to the extender rail with bolts and nuts. Center rail can be used for all sizes.

5 Slide end caps over the foot end of the side rails. The caps are designed so each one fits one side rail, the right side or the left side.
