

SC 18 ASSEMBLY INSTRUCTIONS

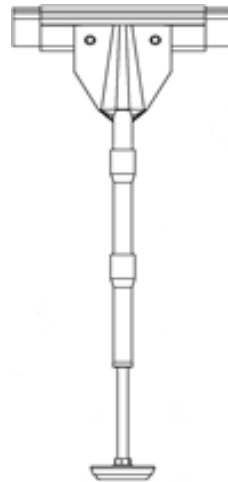

PARTS INCLUDED:

(3) Left Angles (9) Threaded Glides
(3) Right Angles (18) Leg Extenders
(3) Clamp w/thumb screw (6) #8 Wood Screws

TO ASSEMBLE:

1. Overlap one right angle over a left angle and extend them to the appropriate width. The holes at the end of each piece should be on the outside and on the top.
2. Stack leg extenders as shown in the picture and screw in the threaded glides.
3. Center one clamp over the 2 angles, and extend the angles to the proper width so they rest on the cleats of the wood rails and tighten thumbscrew.
4. Secure each end of the rails to the cleats using the wood screws, and unscrew the threaded glides until they reach the floor.

Repeat with the other 2 sets of rails.
