Portable Manhole Collar Davit Base

The FallTech® portable Manhole Collar is designed for use exclusively with FallTech® 12" to 29" Offset Davit Arm #6500128 and one of four lower mast extensions. The manhole collar is utilized as a base in round openings such as manholes, sewer openings, and tank hatches.

- Manhole collar davit base fits 22" to 24" diameter openings.
- Powder coated aluminum construction with PVC mast sleeve insert.
- Features mast securing hand screw and integral carry handles for trouble-free portability.
- No tools required for set-up.
