Design your own app!

Do you have an idea for an app? Then it's time to start designing it!
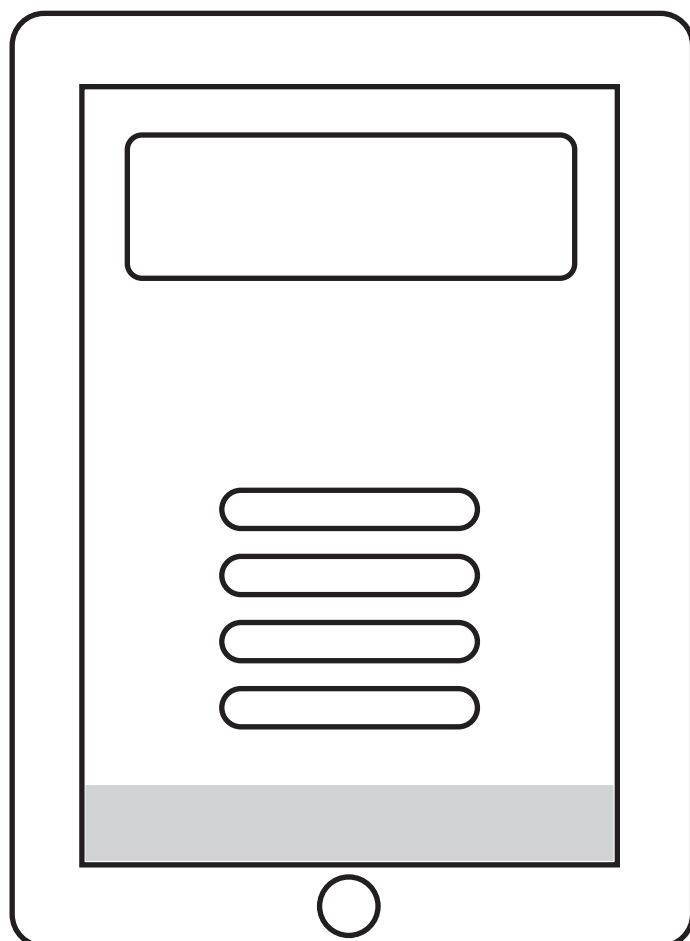

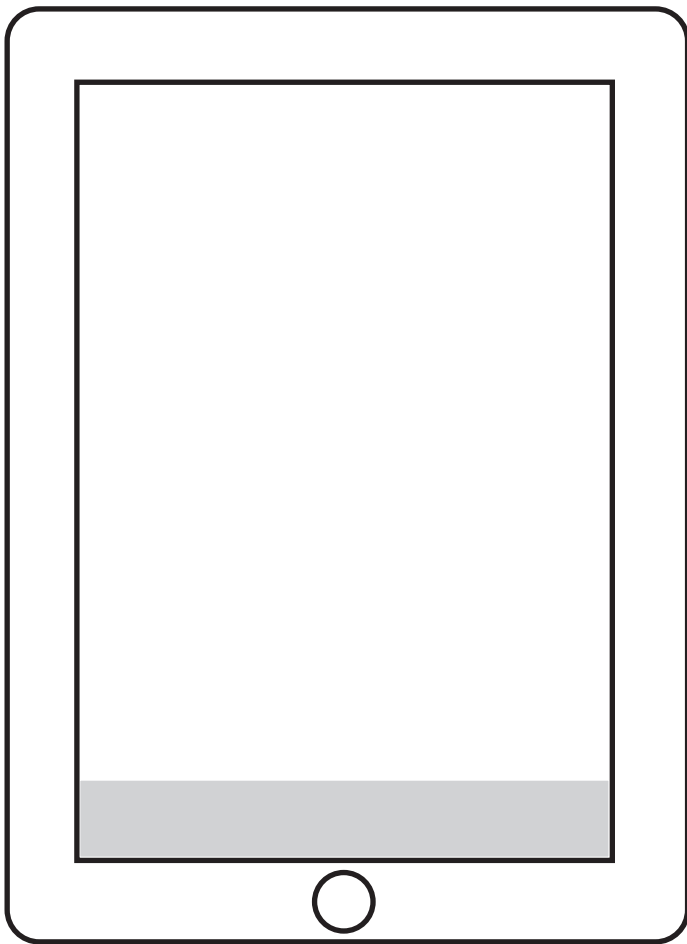

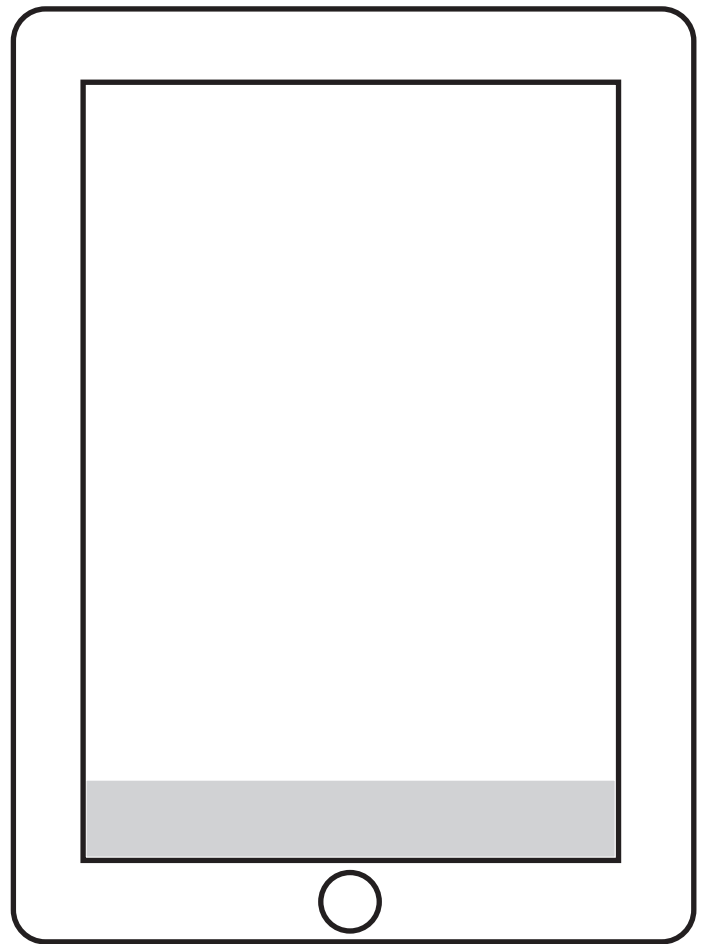

What will users see when they first open your app?

Draw your app logo in the blank square, and add the name of your app in the rectangle.
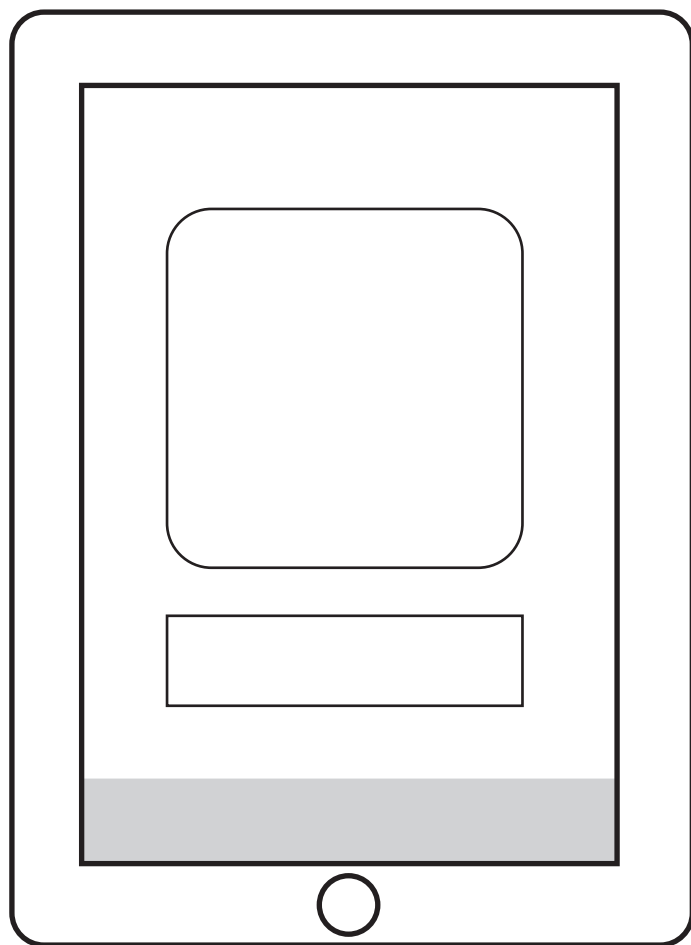

This is your homepage!

There are four options for your app users – what are they?

Design three pages of your app!

If it's a game, maybe you can design the first three levels to show how the game gets harder?

Here's an example to get you started

Balloon Popper!

Play!
