

# Revolution Classic Series

## Assembly Instructions

**Product is comprised of:**

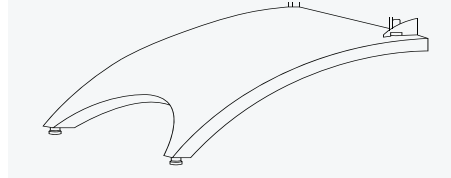

**Pack #1**

2 table top halves, 2 table top frames, screws, and tools

**Pack #2**

2 table base halves, screws, and tools

### Installation Instructions

1. Place Pack #2 on the ground. Open the carton, remove the cushion on the upper side, and take the reinforced support, screws, and tools from the accessory boxes.

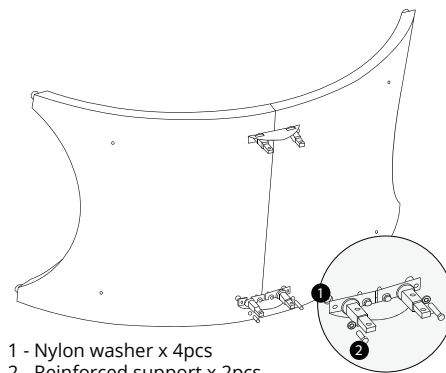

2. Place the 2 base halves on the ground vertically and slide them together until they are even. Install the two reinforced supports along the center seam, tighten the screws and lay the undercarriage flat on the ground. (see Figure 1)

3. Lay pack #1 flat on the ground and open. Loosen the 4 screw nuts on the back of the table top and take out one of the table top frame halves and supporting board with it. Leave the other half in the box.

4. Attach the first half of the table top frame with supporting board to the reinforced support and tighten the screws. Align the supporting board with the 2 slots on the base's surface and slowly lower the 2 pegs, on the edge of the supporting board into the slots. Once in place, screw the 2 pan head screws into the 2 slots on the opposite side of the base. Repeat Step 4 for the other half. (see Figure 2)

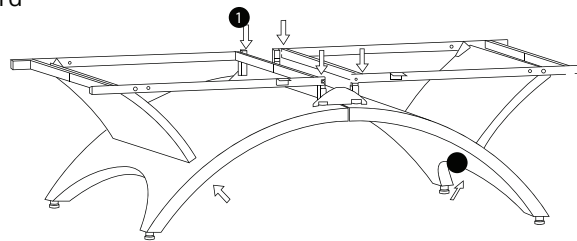

5. Match the 4 locator blocks with the U shape slot on the table top frame and then tighten the screws. Please confirm the table top has been tightened when the installation is completed. Reverse the above steps when uninstalling the table. (see Figure 3)

6. Use the 4 screws on the reinforced support to adjust the middle of the table top until the table top is level. Set the height of the table top to 760mm by adjusting the leg pads, and then tighten the screw nuts.

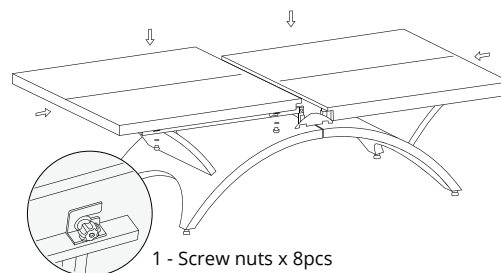

1 - Nylon washer x 4pcs  
2 - Reinforced support x 2pcs

**Figure 1**

1 - Screws x 4pcs  
2 - Pan head screws x 4pcs

**Figure 2**

1 - Screw nuts x 8pcs

**Figure 3**

### Use and maintenance instructions

	It is highly recommended to install the table in a dry, well-ventilated room, away from the outdoors. Keep it clean and dry.
	Assembly time 15 minutes
	Do not place heavy or sharp objects on the table surface.
	Clean the table surface with a soft cotton cloth with warm water and dry immediately after.
	Do not use any solvent (alcohol, diluent, vinegar etc.) to clean the table as this will result in damaging the finish on the table's surface.

### Precautions

	It is highly recommended that at least 2 people assemble the table due to its heavy weight.
	Do not sit on the table.

### Dimension

Length: 8.9 Ft. (1/2 table = 4.45Ft.)  
Width: 5 Ft.  
Height: 2.5 Ft.  
Table Top: 1"

### Performance

Elasticity: 8.6 – 9.8"  
Glossiness: <4  
Friction between table and ball: <0.3

### Package

#### Pack #1

Size: 1640 x 1490 x 260 mm  
Weight: 129kg  
Includes: Table top x 2  
Supporting board x 2  
Retaining screw x 4  
Net-post set x 1

#### Pack #2

Size: 1420 x 1330 x 380 mm  
Weight: 58kg  
Includes: Undercarriage x 2
