

20 Year Anniversary
Designer Series

Safety

1. Killerspin SVR daVinci table should be used as instructed in this manual. Any misuse of the table or incorrect assembly could result in damage or injury. In case you would like to move the table, first take off the net assembly, then move the two table halves slightly away from each other to avoid any contact between table tops. With two people lift and move each table half separately to the desired place.
2. The table is heavy. Instruct others (particularly children) of any potential source of danger, especially when assembling or disassembling the table. We recommend this is done by two adults.
3. Caution: while assembling the product, keep out of the reach of children (choking hazard - contains small parts).
4. Do not use corrosive or abrasive materials to clean the equipment. In most cases, a slightly moist cloth is sufficient.
5. Please check the table for correct assembly before use.

Maintenance

1. Your Killerspin SVR daVinci table is designed for indoor use only and should be kept in a ventilated space away from: direct sunlight, extensive temperatures, corrosive environment, and rain.
2. Proper care and maintenance of your table's surface is required for long term performance. Over time , your table's playing surface can build up layers of dirt and grime. You can protect your investment with the Killerspin table tennis surface cleaner - MyT Clean .
3. MyT Clean helps maintain superior conditions for optimal play. It removes the dust, dirt, grease and fingerprints that can build up and make your table look worn. Keep your table tennis surface clean for the best bounce, and maximum shot control.
4. Avoid excessive contact of the paddle against the table top during play.
5. Do not place hot goods on table top.
6. Do not stand, sit or place heavy goods on table.
7. Do not use the table for any exercise other than table tennis.
8. Do not move table around quickly on bumpy, rugged ground.
9. Do not use a wet cloth to clean the table.

SVR daVinci Series

TABLE MODEL

Overview

Please read this instruction carefully before you start with assembly.

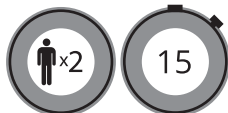

It contains important information relating to safety, assembly and maintenance of your SVR daVinci table.

We recommend to keep this manual in case you need to order spare parts or review the maintenance recommendation.

Assembly requires two adults throughout each stage of assembly.

Follow assembly instructions carefully.

TABLE MODEL

Assembly

Please read carefully.
Assembly requires two adults.

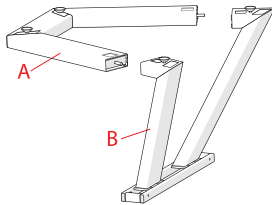

1. Lay the table box on smooth clean surface, with print on the box facing up. Using 2 people carefully open the box and lay both table tops flat and face down on a soft surface, blanket or piece of cardboard, free of any debris, so you do not scratch the surface. Please be sure that you find marking numbers for each side of table top and base component (1 and 2).

2. Install Table Base according to the following steps:

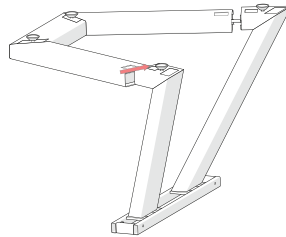

step1

Slide Part A to Part B.

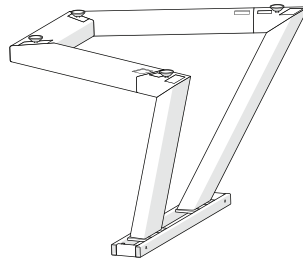

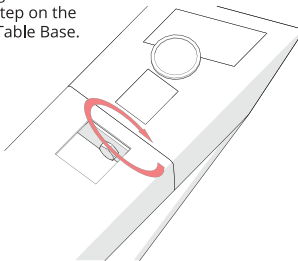

step2

Make sure that part A slides into the slots of part B.

step3

Using Table Base screw(see the part list) connect part A to part B and tighten.
Repeat this step on the other set of Table Base.

TABLE MODEL

3. Connect Table Top and Base according to the following steps using Table Top screws(see the part list):

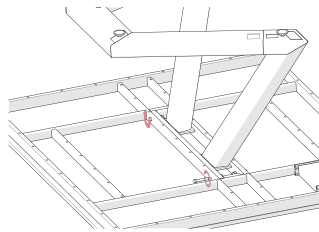

step1

Carefully place the Table Base set onto Table Top frame as shown.

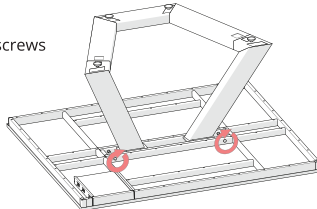

step2

Insert Table Top screws into their slots and tighten to secure the Table Top. Repeat this step on the other side of the assembly.

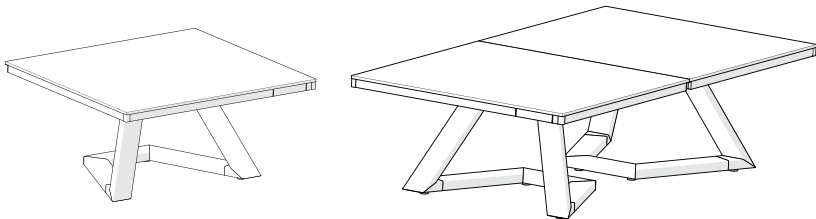

step3

Make sure that Table Top screws are tightened.

4. With two people turn each table assembly up and slide the two halves together.

TABLE MODEL

Net Post Instalation

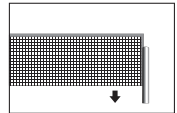

TOOL FREE ASSEMBLY 

- 1** Remove the inner tube from the supporting post. Detach the plastic cap from one end of the inner tube and remove the metal rod.

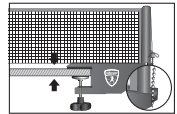

- 2** Thread the metal rod through the sleeve on the end of the net and slide into gap on the inner tub. Replace the plastic cap. Insert the inner tube into the supporting post - repeat process for the other side.

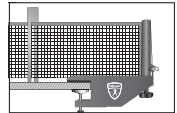

- 3** Fasten posts to each side of the table, one at a time. Once one side is screwed tight, gradually fasten the other post and tighten by angling the post onto the table.

- 4** Attach metal beads to each side of the net cord and insert beads into groove on post to gain tension on the top edge of the net.

- 5** If necessary, use the height adjustment knob to raise or lower the net height to the desired level (a net-height gauge is included)

TABLE MODEL

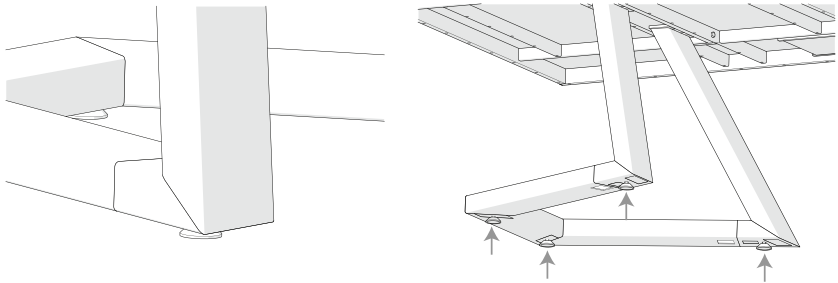

Adjustments

TABLE TOP HEIGHT ADJUSTMENTS

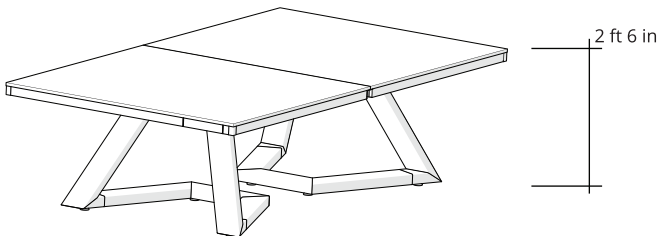

This following step will show you how to adjust the height of each Table Top so they are level.

Adjust the foot screw until Table Top is level. To lower height of the table, turn foot screw clockwise and vice versa to raise height.

All feet can be adjusted slightly to ensure a level playing surface.

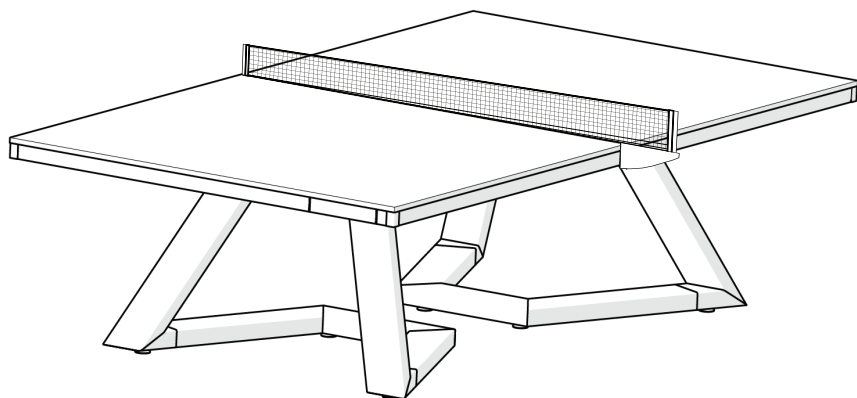

The recommended height for table is 2 feet 6 inches from the ground.

CONGRATULATIONS!

This completes the assembly of the Killerspin SVR daVinci
