

## GloLens: Perfect Your Selfies!

Are you the keeper of the family's memories? Do you take all the photographs and miss out on actually being IN them? The only way I get in photos is in selfie mode and I'm okay with that. There used to be a problem — typically there's no lighting or flash in selfie mode on cell phones. GloLens is your smart and easy solution! This clip on accessory gives you excellent lighting in any situation with 12 LED bulbs and 3 brightness levels.

It clips to your phone and is easy to position right over your camera's selfie lens. It comes in 3 pretty colors: gold, silver and rose gold. You can charge your device with the included USB cable and it's portable with the drawstring carrying bag that comes with it. Now you can get in the picture any time!

Here's an example of a photo I took with my iPhone in selfie mode. I was in a dark bedroom with the lights off and the curtains closed.

This is a photo just seconds later in the same setting but with GloLens. It makes a big difference! Now, I have to say, I have a very special use in mind for my GloLens. When we get a few families together for a gathering at our house, it's sort of a tradition for the moms to sneak off for a walk in the neighborhood kid-free. It's often after dark and we always go visit our neighbor's horse to feed it an apple or carrot. If we don't selfie, it didn't happen. But when it's dark, we have to try to use the front facing camera and it takes a million tries to get a photo that we are actually in, not to mention in with the HORSE. The wide angle lens of the GloLens will make it so much easier! I know it's silly but we have fun. Next time I'll be bringing the GloLens and finally getting a good photo of our adventure!

At just \$24, GloLens makes a great gift and shipping is free on online orders at [www.justfashionit.com](http://www.justfashionit.com) with code FreeShipping50. This product is also available in specialty shops, toy stores, pharmacies and national chains such as Barnes & Noble, Paper Source and Bed, Bath & Beyond. Find the nearest retailer by zip code at their "Where To Buy" page at [www.justfashionit.com](http://www.justfashionit.com).

Every purchase from Fashionit supports a child affiliated with SOS Children Villages. In the U.S., children can take advantage of community centers, counseling family support and job training classes in the Chicago region and Florida. Globally the non-profit supports orphans worldwide with a loving home and better opportunities in life.
