

{Brag Worthy Christmas} Perfect Selfie Every time with the GloLens Selfie Light~Review

I've got to admit.....I kind of take a lot of selfies. Mom's are usually the ones taking pictures of everybody, but we want to be in picture too, right?! I was excited to review the GloLens, and I have been putting it to good use!!

"Trendy and techy is the best way to describe this must-have-now accessory. Each lens comes with a carrying case and USB charging cable. Smart! The 12 LED bulbs enhance every scene. Shooters can adjust up to three brightness levels. Choose rose gold, gold or silver. When combined with the U Speaker as a remote control for your phone, the GloLens makes your remote selfie the best ever!"

Truth be told, the GloLens is a much better phone accessory for a tween or teen who probably takes a lot more selfies than I do. In fact, my daughters have both swiped the GloLens for themselves a time or two! We all love it! The GloLens comes in 3 different colors so you can choose the one that matches your phone. It also adjusts to three levels so depending on your lighting needs, you can get the perfect selfie every time!! This selfie light has a bunch of LED lights that enhance whatever selfie scene you are in.

The [GloLens](#) is super easy to use too! You simply line the lens up with the camera on your phone and clip it on. It has a great hold so there is no worry about it falling off 'Mid-selfie'. Once it's clipped on your phone, you turn it on with the push of a little button. Push the button up to three times to get a brighter light than before! This illuminating lens captures photos at a wide angle making your selfies look great every time. To top it all off, the battery is rechargeable and the lens comes with a USB or easy charging! It also comes with a carrying case so you can take the GloLens everywhere you go. You can even use this selfie light with a tablet!

So why would you want a selfie light? Because this baby will improve the look of your skin in photos making you lighter & brighter. No more dark, low-quality selfies that end up getting deleted. If you have a selfie-taker in your house, then grab a GloLens. It would make the perfect STOCKING STUFFER for your tween or teen this Christmas!! The GloLens gets BRAGGING RIGHTS!!
