

OSSORO

THE FLAVOUR ALCHEMISTS

We're all about getting to the heart of good food – flavour. Born from a quest for culinary perfection, Ossoro was created to respect and contribute to the balance of flavour profiles to help you create impeccable food, every single time.

The flavour alchemists at Ossoro take pride in creating elixirs that bring your food to life.

From the souks of Morocco, fragrant with their heady mix of piquant spices to the luxuriously provocative Malagasy Cacao and luscious sun ripened fruits of the tropics, to our very own culinary-legends like the Mughal Biryani or the quintessential Old Monk, each bottle is a result of our passion to elevate and ignite the senses.

THE EXPERIENCE

At Ossoro, we strive to give you an unparalleled experience of flavour. Every single bottle is a result of dedicated research and development by our in-house flavour alchemists backed by a solid framework of systems, processes and constant innovation. Each of our creations are tried and tested in real-world applications to adhere to our commitment of safe food of the highest quality.

We believe in a 'less is more' philosophy and every drop delivers. Even minimal quantities of our elixirs deliver elusive, full-bodied taste and aroma that enhance your culinary experience.

Ossoro is a result of two-generations of passion in the food and flavour industry and it certainly shows.
