

SURFACING RANGE

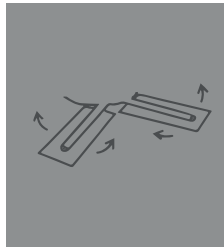

TIFON

Trowels

With a variety of petrol engines to choose from, TIFON trowels series allow users to pick the appropriate model for their needs.

The set includes float discs and finishing blades

+
Lifting point

Equipped to facilitate the transport of the machine.

+
Adjustable blades

Designed to allow manual adjustment of the blade's inclination by the user.

+
Dead man's system

Two-way security system that disconnects the machine not only when user releases the handlebar but also when the trowel starts to turn uncontrollably

+
Foldable handle

Featured on models 600 and 900 for easy transportation.
