

# Chicago Pneumatic

## RED HAWK ROAD

# COMPACT YET POWERFUL.

The Red Hawk Road is the true heavy hitter in CP's Red Hawk range. The unique design combines an ultra-compact 25 x 108 mm (1 x 4-1/4 in) shank\* with 60 J of power at the tool tip, delivering enough impact energy to handle silica-rich rocks and reinforced concrete. It all adds up to the same power-to-weight ratio as many pneumatic and hydraulic breakers, but without being tied down to a power source or hoses. Applications include breaking concrete and asphalt, sidewalk service, pothole repair/tamping, installing post signs/barriers and fences, and digging frozen or hard ground.

\*Model with 25 x 108 mm (1 x 4-1/4 in) shank. Other shank sizes available.

#### IMPACT ENERGY

**60 J** (44 ft-lb)

#### BLOW FREQUENCY

**1,440 bpm**

#### WEIGHT

**22 kg** (48.5 lb)\*

#### LENGTH

**743 mm** (29.3 in)\*

#### VIBRATION LEVEL

**7.0 m/s<sup>2</sup>** (23 ft/s<sup>2</sup>)

#### EXPOSURE LIMIT VALUE

**5 hours per day**

Passion.  
Performance.

Red Hawk Road

**SERVICE ACCESS**

Top compartment opens for easy access to change the filter.

**ERGONOMIC DESIGN**

Vibration-reducing handles allow operators to work longer with less fatigue. Hand throttle also provides excellent control.

**EASY SETUP AND HANDLING**

The compact, portable design requires no cables, hoses or external power sources. It's ideal for applications where you change locations frequently.

**QUICK STARTING**

Spring-loaded kill switch springs back into the starting position, so the tool is ready when you pull the cord on the recoil start.

**FRONT EXHAUST**

Exhaust is ported at the front of the tool, away from the operator.

**HIGH POWER**

The Red Hawk Road delivers a combination of high percussive energy and high blow frequency to help you get the job done faster.

**MULTIPLE USES**

An extensive range of tools allows you to use the Red Hawk Road for everything from cutting and breaking to driving and compacting.
