Remember to be safe and most importantly, have fun!
What's in the Box

1. Claw Hoverboard
2. Steering Wheel
3. Booster/Reverse Gear
4. Accelerator
5. Brake
6. Seat
7. Backrest

Specs & Features

**Claw (JCLAW-BLK)**
- Weight Limit: 264 lb
- Product Weight: 32 lb
- Product Dimensions: 27.56" × 8.7" × 9"
- Recommended Age: 12+
- Tire Size: 8.5"
- Max Speed: Up to 12 mph
- Max Range: Up to 12 miles
- Battery: 25.2V, 4.0Ah Lithium-Ion
- Motor: 500W Dual Hub
- Charger: UL Listed, 110-240V
- Charge Time: Up To 3 Hours
- Climbing Angle: Up To 15°

**Condor (JCONDR-RDW)**
- Tire Size: 8.5"
- Product Dimensions: 43.3-51.1" × 27.5" × 19.6"
- Weight Limit: 200 lb
- Product Weight: 53 lb
- Recommended Age: 12+

1. Get Started

1.1 Charging the Battery
- Only use the included charger
- Plug the charger into the wall before the Charging Port
- Don’t turn on the Claw while it’s charging
- Charge the battery until it is fully charged - up to 3 hours
- Replace the cover over the Charging Port when done
1.3 How to Recalibrate

Follow these 3 simple steps...

1. Place the Claw on a flat, level surface.
2. Hold the Power Button (for about 5 seconds) until you are notified of a successful recalibration.
3. Restart the Claw by turning it off and then on.

2. Assembly

2.1 Assembling the Condor

Step 1: Stretch the Condor to suitable length.
2.2 Attaching the Condor

Step 2: Set the length of the Condor and lift the steering column to the proper position.

Step 3: After securing the steering column with the quick release, install the steering wheel and back rest. The Condor installation is now complete.

Place the Condor on top of the Claw.

Pull the Velcro straps tight and fold.
3. Make Moves

3.1 Riding the Claw

- TURN LEFT
- TURN RIGHT

3.2 Riding the Condor

Push down for going forward, lift up for backward

- The rider must be fully seated before powering on the Claw.
- Remember to Buckle up before riding.
- Step on the Accelerator to move Forward
- Step on the Brake to Stop
- Push down on the Booster to quickly gain speed, pull back to operate in Reverse.

**Note:** If the Claw is not leveled when you turn it on, the Condor will go forward or backward immediately. Tighten all screws and locking nuts before each ride to ensure they are tight.

**WARNING:**
To reduce the risk of injury, adult supervision is required. Never use in roadways, near motor vehicles, on or near steep inclines or steps, swimming pools or other bodies of water; always wear shoes, and never allow more than one rider.

*Adults must assist children in the initial assembly and adjustment procedures to fold/unfold product and adjust handlebars.

Please Note: Images may not reflect exact appearance of actual product.
3.3 Connecting to Bluetooth®

The Claw comes equipped with Bluetooth® speaker.

To connect to your Bluetooth® speaker:
• Turn on the Claw, and it will become discoverable to your handheld device.
• Activate your Bluetooth® in your handheld device’s settings.
• Find the Claw in your handheld device’s list and select it.
• Now you can play your music.

Care & Maintenance

CLEANING

THE Condor
To clean the Condor, carefully wipe with a damp cloth, then dry with a dry cloth. Do not use water to clean the Condor, this may damage the frame or seat.

THE Claw
To clean the Claw, carefully wipe with a damp cloth, then dry with a dry cloth. Do not use water to clean the Claw, as the electrical and electronic systems may get wet, resulting in personal injury or malfunction of the Claw. If the electric parts or battery get wet, do not power on the Claw. Please contact Jetson Customer Support for assistance.

FEW MUST-DO’S
• Keep away from fire and excessive heat.
• Avoid intense physical shock, severe vibration, or impact.
• Please ride the Condor on a smooth, flat surface.
• Protect from water or moisture.
• Contact Jetson Customer Support if there are any issues with the Condor.

RIDING RANGE
The maximum range is 12 miles. However, many factors will affect how far you can go per charge:
• Driving Surface: A smooth, flat surface will increase driving distance.
• Weight: More weight means less distance.
• Temperature: Ride, store, and charge the Claw above 50°F.
• Maintenance: Timely battery charging will increase driving distance.
• Riding Style: Frequent starting and stopping will reduce driving distance.

BATTERY
• Keep away from fire and excessive heat.
• Avoid intense physical shock, severe vibration, or impact.
• Protect from water or moisture.
• Do not disassemble the Claw or its battery.
• Contact Jetson Customer Support if there are any issues with the battery.

STORAGE
• Fully charge the Claw’s battery before storing and should be fully re-charged once a month there after.
• Cover to protect against dust.
• Store indoors, in a dry place.

MODIFICATIONS
Do not attempt to disassemble, modify, repair, or replace the product or any components of the unit without instruction from Jetson Customer Support. This will void any warranty, and can lead to malfunctions which may cause injury.

ADDITIONAL OPERATION CAUTIONS
Do not lift the product off the ground while it is on and the wheels are in motion. This can result in freely spinning wheels, which may cause injury to yourself or others nearby. Do not jump on or off the product, and do not jump while using it. Always keep your feet firmly planted on the mat sensors while in operation. Always check the battery charge before using.

DISPOSAL OF USED BATTERY
Battery may contain hazardous substances which could endanger the environment and human health. This symbol marked on the battery and/ or packaging indicates that used battery shall not be treated as municipal waste. Batteries should be disposed of at an appropriate collection point for recycling. By ensuring the used batteries are disposed of correctly, you will help preventing potential negative consequences for the environment and human health. The recycling of materials will help to conserve natural resources. For more information about recycling of used batteries, please contact your local municipality waste disposal service.

Safety Warnings

- Before use, please read the user manual and safety warnings carefully, and make sure you understand and accept all the safety instructions. The user will be responsible for any losses or damage caused by the user's use.
- Before each cycle of operation, the operator shall perform the preoperation checks specified by the manufacturer: That all guards and pads originally supplied by the manufacturer are in proper place and condition; That the braking system is functioning properly; That any and all axle guards, chain guards, or other covers or guards supplied by the manufacturer are in place and in serviceable condition. That tires are in good condition, inflated properly, and have sufficient tread remaining. The area that the product is to be operated should be safe and suitable for safe operation.
- Operators shall be made familiar with the instructions of the manufacturer's specifications and using only the manufacturer's authorized replacement parts with installation performed by dealers or other skilled persons.

- Shielded cables must be used with this unit to ensure compliance with the Class B FCC limits. 
- The interference by one or more of the following measures: 
  - which can be determined by turning the equipment off and on, the user is encouraged to try to correct interference to radio communications. However, there is no guarantee that interference will not occur in a frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference in a residential installation.  This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions could void the user's authority to operate the equipment.
  - NOTE: 
    - this device may not cause harmful interference, and 
    - this device must accept any interference received, including interference that may cause undesired operation.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
- (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
