1. Get Started
1.1 Assembly
Connecting the Handlebars:
- Look inside of each Handlebar to see which is labeled L (left) and R (right).
- Tighten by turning the Handlebars. Make sure the Handlebars are secure.

1.2 Battery Care Tips
- Only use the included charger.
- Plug the charger into the wall before the Charging Port.
- Don’t turn on the Element while it’s charging.
- Charge the battery until it is fully charged - up to 4 hours.
- Replace the cover over the Charging Port when done.

1.3 Unfolding the Element
Unclip
Unclip the hook from the Rear Foot Brake
Lift Handlebars away from Deck.
Lock the Release Lever by lifting it up until it clicks.
Make sure the Release Lever and Handlebars are secure. Unlock the Release Lever to fold.

1.4 Operating the Element
- Powering On/Off - Hold the Power Button for 3 seconds to turn the Element on or off.
- Light Function - Once the Element is on, tap the Power Button to turn on the headlight and taillight. The light symbol will show on the LED Display.
- LED Display - Shows current speed and battery life remaining.

1.5 Settings Menu
Hold the Power Button and Settings Button at the same time to enter the Settings Menu. Once in the Settings Mode, tap the Power Button to cycle through the options (C1, C2, C3).

2. Make Moves
2.1 Riding the Element
Hold the Power Button and Settings Button to save the settings.

Remember to be safe and most importantly, have fun!
2.2 Using the Thumb Throttle

Safety Warnings
- Before use, please read the user manual and safety warnings carefully, and make sure you understand and accept all the safety instructions. The user will be responsible for any loss or damage caused by improper use.
- Before use, check to confirm that all and all axle guards, chain guards, or other covers or guards are in place and in serviceable condition. Check that the tires are in good condition, inflated properly and have sufficient tread remaining. Check that all guards and pads are in proper place and in serviceable condition.
- Components shall be maintained and replaced in accordance with the manufacturer’s specifications and using only the manufacturer’s authorized replacement parts with installation performed by dealers or other skilled personnel.
- Do not operate the product at speeds exceeding 22 miles per hour (35 km/h). When operating, always keep the product in sight. Never ride with improperly adjusted brakes.
- Do not operate the product on unpaved or uneven surfaces, such as rocky or gravelly terrain, or on slopes. Do not perform stunts or turn abruptly.
- Do not ride the product without visual contact with the area you are riding in.
- Do not ride with improperly adjusted brakes is dangerous and can result in serious injury or death.
- Applying brakes too hard or too suddenly can lock up a wheel, which could cause you to lose control and fall. Sudden or excessive application of the brake may result in injury or death.
- If you have any medical condition that may be affected by the operation of the scooter, please consult your physician before use.
- The product cannot be ridden by more than one person.
- When you ride the product along with other riders, always keep a safe distance to avoid a collision.
- When turning, be sure to maintain your balance.
- The maximum range is 8 miles. However, a lot of factors will affect how far you can go per charge.
- Driving Surface: A smooth, flat surface will increase driving distance.
- Weight: More weight means less distance.
- Temperature: Ride, charge, and store the Element below 90°F.
- Maintenance: Timely battery charging will increase driving distance.
- Distance and Driving Style: Frequent starting and stopping will reduce driving distance.

CLEANING THE ELEMENT
To clean the Element, carefully wipe with a damp cloth, then dry with a dry cloth. Do not use water to clean the Element, as the electrical and electronic systems may get wet, resulting in personal injury or malfunction of the Element.

BATTERY
- Keep away from fire and excessive heat.
- Avoid inhaling physical shock, severe vibration, or impact.
- Protect from water or moisture.
- Do not disassemble or reassemble the battery or battery pack.
- If there are any issues with the battery, please contact Jetson Customer Support.

STORAGE
- Fully charge the battery before storing. The battery should be fully charged once a month after this.
- Cover the Element to protect against dust.
- Store the Element indoors, in a dry place.

DISPOSAL OF USED BATTERY
Battery may contain hazardous substances which could endanger the environment and human health. This symbol marked on the battery and packaging indicates that used battery shall not be treated as municipal waste. Batteries should be disposed of at an appropriate collection point for recycling. By ensuring the used batteries are disposed of correctly, you will help prevent potential hazards and consequences for the environment and human health. The recycling of materials will help to conserve natural resources.

For more information about recycling of used batteries, please contact your local municipality waste disposal service.

2.3 Using the E-Brake

Note: Press down on the E-Brake slowly to avoid sliding abruptly or losing control.

2.4 Using the Rear Foot Brake

Press down to come to a complete stop.
