Specs & Features

- Product Dimensions: 41.50” (L) x 17.17” (W) x 41.28” (H)
- Product Folded Dimensions: 41.50” (L) x 17.17” (W) x 19.00” (H)
- Handlebar Height: 41.28”
- Deck Size: 21.88” x 5.70”
- Weight Limit: 220 lb
- Product Weight: 30 lb
- Recommended Age: 12+
- Wheel Size: 8.5”
- Max Speed: Up To 14 mph
- Max Range: Up To 12 Miles
- Battery: 36V, 7.5Ah
- Battery Type: Lithium Ion
- Motor: 250W
- Charger: 42VDC, 2A Max
- Charge Time: Up To 5 Hours
- Climbing Angle: Up To 20°
1. Get Started

1.1 Assembling the Handles

**CAUTION:**
Prior to assembling the right handle grip make sure the throttle is pushed in all the way towards the phone holder and tightened. Failure to do this can lead to the throttle being stopped by the handlebar.

![Tighten Bolt](image)

Make sure the Bolt is tight and the Brake Lever is secure.

![Screw Handles into Handlebar](image)

**Installing the Handles:**
Take one handle and twist it towards the rider 3-4 times until it catches. If it does not catch, try the other handle on the same side. Tighten until the handle no longer turns. Repeat with the other handle.

1.2 Charging the Battery

- Only use the included charger
- Plug the charger into the wall before the Charging Port
- Don’t turn on the Eris while it’s charging
- Charge the battery until it is fully charged - up to 5 hours

**CHARGING INDICATOR ON THE CHARGER:**

- [ ] - Charging
- [ ] - Charge Complete
1.3 Unfolding / Folding the Eris

Unclip the Handlebar from the Rear Fender

Lift Handlebars away from Deck

Close the Release Lever by lifting it up until it clicks

Lock the Release Lever

• Reverse these steps to fold the Eris.

1.4 Operating the Eris

Unclip the Handlebar from the Rear Fender

Lift Handlebars away from Deck

Close the Release Lever by lifting it up until it clicks

Lock the Release Lever

- Power On - Press Power Button for 3 seconds to turn off / on.
- Speed Mode - Press Power Button once to change speed modes.
- Headlight - Press Power Button twice to turn off / on headlight.
- Odometer - Press Power Button 3 times to switch KM/H and MPH.

*Adults must assist children in the initial adjustment procedures of the product.*
2. Make Moves

2.1 Using the Thumb Throttle / Handbrake

Handbrake: Squeeze the Handbrake slowly to avoid stopping abruptly or losing control.

Thumb Throttle: The Eris is motion activated. Push forward with one foot before using the Thumb Throttle. Also, please try to take it easy on the throttle until you get used to it.

Brake and Throttle Control:
- Engaging the Brake lever will shut off power to the throttle.
- Eris will not work when brake is applied.

Cruise Control:
- Hold down the throttle for 10 seconds to engage Cruise Control.
- A confirmation beep will notify the rider that Cruise Control is activated.
- Disable cruise control by using the handbrake or by pressing down on the throttle.
- Also please try to take it easy on the throttle until you get used it.

2.2 Mounting the Phone

- Position your device in between the two arms of the holder.
- Use the knob below to secure your phone to the holder.

2.3 Riding the Eris

- Place one foot in front.
- Place the other foot in back, at a 70-90° angle.
- Turn the handlebar to the left or right to make turns.
Care & Maintenance

RIDING RANGE
The maximum range is 12 miles. However, many factors will affect how far you can go per charge:
- Driving Surface: A smooth, flat surface will increase driving distance.
- Weight: More weight means less distance.
- Temperature: Ride, charge, and store the Eris above 50°F.
- Maintenance: Timely battery charging and maintenance will increase driving distance.
- Speed and Driving Style: Frequent starting and stopping will reduce driving distance.

CLEANING THE ERI
To clean the Eris, carefully wipe with a damp cloth, then dry with a dry cloth. Do not use water to clean the Eris, as the electrical and electronic systems may get wet, resulting in personal injury or malfunction of the Eris.

BATTERY
- Keep away from fire and excessive heat.
- Avoid intense physical shock, severe vibration, or impact.
- Protect from water or moisture.
- Do not disassemble the Eris or its battery.
- If there are any issues with the battery, please contact Jetson Customer Support.

STORAGE
- Fully charge the battery before storing. The battery should be fully charged once a month after this.
- Cover the Eris to protect against dust.
- Store the Eris indoors, in a dry place and at a suitable temperature.

MODIFICATIONS
Do not attempt to disassemble, modify, repair, or replace the product or any components of the unit without instruction from Jetson Customer Support. This will void any warranty, and can lead to malfunctions which may cause injury.

ADDITIONAL OPERATION CAUTIONS
Do not lift the product off the ground while it is on and the wheels are in motion. This can result in freely spinning wheels, which may cause injury to yourself or others nearby. Do not jump on or off the product, and do not jump while using it. Always keep your feet firmly planted on the deck while in operation. Always check the battery charge before using.

DISPOSAL OF USED BATTERY
Battery may contain hazardous substances which could endanger the environment and human health. This symbol marked on the battery and/or packaging indicates that used battery shall not be treated as municipal waste. Batteries should be disposed of at an appropriate collection point for recycling. By ensuring the used batteries are disposed of correctly, you will help preventing potential negative consequences for the environment and human health. The recycling of materials will help to conserve natural resources. For more information about recycling of used batteries, please contact your local municipality waste disposal service.
