What's in the Box
1. Handlebar
2. Headlight
3. Release Lever
4. Front Tire
5. Kickstand
6. Deck
7. Rear Foot Brake
8. Rear Tire
9. Small Screw (4)
10. Charging Model: CP4215
11. Charging Cable

1. Get Started
1.1 Assembly
Connecting the handlebar:
- Connect the two plugs from the handlebar and stem tube. Tuck any excess wire into the stem tube.
- Slide the handlebar into the stem tube.
- Tighten using the four screws. Make sure the screws are tight and the handlebar is secure.

1.2 Battery Care Tips
- Only use the included charger.
- Plug the charger into the wall before the Charging Port.
- Don’t turn on the Element Pro while it’s charging.
- Charge the battery until it is fully charged - up to 4 hours.
- Replace the cover over the Charging Port when done.

1.3 Unfolding the Element Pro
Unclip
Unclip the hook from the Rear Foot Brake.
Lift handlebars away from Deck.

1.4 Operating the Element Pro
- Powering On: Press the Power Button to turn on.
- Powering Off: Hold the Power Button for 2 seconds to turn off.
- Speedometer: Hold the Power Button for 6 seconds to switch between mph and km/h.
- Speed Modes: Press the Power Button once to switch the speed modes.
- Light Function: Press the Power Button twice to turn on the headlight.
- The light symbol will show on the LCD Display.

Specs & Features
- Max Speed: Up To 15 mph
- Max Range: Up To 12 miles
- Battery: 36V, 6.6AH Lithium-Ion
- Motor: 250W Hub Motor
- Charger: 100-240V
- Charge Time: Up to 4 Hours
- Climbing Angle: Up to 16°
- Unfolded Dimensions: 40” x 18.5” x 42.5”
- Folded Dimensions: 40” x 16.6” x 10”
- Deck Size: 24” x 6.7”
- Handlebar Height: 42.4”
- Tire Size: 8”
- Weight Limit: Up to 235 lb
- Product Weight: 34 lb
- Recommended Age: 12+

Remember to be safe and most importantly, have fun!

2. Make Moves
2.1 Riding the Element Pro
- Place one foot in front.
- Place the other foot in back, at a 70-90° angle.
- Turn the handlebar to the left or right to make turns.

2.2 Using the Thumb Throttle
- Note: Use the throttle gently until you get used to it.

2.3 Using the E-Brake
- Note: Press down on the E-Brake slowly to avoid stopping abruptly or losing control.

2.4 Using the Rear Foot Brake
- Press down to come to a complete stop.

Please note: Images may not reflect exact appearance of actual product.
Connecting to the Bluetooth®
Your Jetson Element Pro Bluetooth® enabled, so you can pair it with the Rida Jetson app on your personal Bluetooth® enabled device. The Rida Jetson app is available for download from the App Store and the Google Play Store, and it’s free!
1. Turn on the Element Pro.
2. Open the Rida Jetson app on your handheld device.
3. Tap the Bluetooth® symbol in the top left corner of the app (if you have not activated your Jetson Bluetooth® on your handheld device, the app will remind you).
4. Search for your Element Pro.
5. The default Bluetooth password is 000000. If you would like to customize your password, go to the settings of your Bluetooth.
If you are having issues connecting to Bluetooth®, follow these steps:
1. Try restarting the Element Pro by turning it off and then on.
2. Click the scan button to refresh.
3. Restart the Rida Jetson app.
Extra features available with the Rida Jetson app:
• Turn your headlight on or off.
• Lock and unlock the throttle.
• Keep track of your travel time and distance.
• Choose from 3 different speed modes (Gear 1–3).

Care & Maintenance
MAXIMUM RANGE
The maximum range is 12 miles. However, many factors will affect how far the scooter will go per charge.
• Driving Surface: A smooth, flat surface will increase driving distance.
• Weight: More weight means less distance.
• Temperature: Battery, charge, and store the Element Pro above 40°F.
• Maintenance: Battery charging will increase driving distance.
• Speed and Driving Style: Frequent starting and stopping will reduce driving distance.
CLEANING THE ELEMENT PRO
To clean the Element Pro, carefully wipe with a damp cloth, then dry with a dry cloth. Do not use water to clean the Element Pro as the electrical and electronic systems may get wet, resulting in permanent injury or malfunction of the Element Pro.
BATTERY
• Keep away from fire and extreme heat.
• Avoid intense physical shock, severe vibration, or impact.
• Do not disassemble the Element Pro or its battery.
• Do not use the battery alone, other than when checking its state of charge.
STORAGE
• Fully charge the battery before storing. The battery should be fully charged once a month after this.
• Cover the Element Pro to protect against dust.
• Store the Element Pro indoors, in a dry place.
MODIFICATIONS
Do not attempt to disassemble, modify, repair, or replace the product or any components of the electric scooter. All of these modifications could void your warranty and cause injury.
ADDITIONAL OPERATION CAUTIONS
• Do not lift the product off the ground with feet or hand and the wheels are on the ground.
• Do not use the product on steep hills or rough terrain, which may cause injury to yourself or others. Do not jump on or off the product, and do not jump after using. Always keep your feet firmly planted on the motor sensitiv in operation. Always check the battery charge before using.

DISPOSAL OF USED BATTERY
• Battery may contain hazardous substances which could endanger the environment and human health. This symbol marked on the battery and end-of-life notice indicates that used battery should not be treated as municipal waste.
• Batteries should be disposed of at an appropriate collection point for recycling. By disposing of used batteries you will help prevent potential negative consequences for the environment and human health. The recycling of batteries will help to conserve natural resources. For more information about recycling of used batteries, please contact your local municipality.

Safety Warnings
• Do not use the product while under the influence of alcohol or other drugs.
• Do not use the product on steep hills or rough terrain, which may cause injury to yourself or others. Do not jump on or off the product, and do not jump after using. Always keep your feet firmly planted on the motor sensitiv in operation. Always check the battery charge before using.

California Proposition 65

WARNING:
The State of California has listed the following chemicals which are known to cause cancer or birth defects or other reproductive harm: formaldehyde, benzene, benzene, and deoxyribonucleic acid. For more information go to www.P65Warnings.ca.gov.

NOTICE OF COMPLIANCE
The device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

WARNING: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user’s authority to operate the equipment.

NOTE: The equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If such interference occurs, try to correct the interference by one or more of the following measures:

• Reorient or relocate the receiving antenna.
• Increase the separation between the equipment and receiver.
• Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
• Consult the dealer or an experienced technician for help.

These devices must not be used with the wire to ensure compliance with the Class B limits.
