Warning: The Flash will automatically turn off once the battery power goes below 10% as a safety precaution.

Status Indicator Light - If the Status Indicator Light turns red or if you are having issues with the Flash, you may need to recalibrate it.

1.2 Indicator Lights

1.3 How to Recalibrate

Follow these 3 simple steps...

1. Place the Flash on a flat, level surface.
2. Hold the Power Button (for about 5 seconds) until you are notified of a successful recalibration.
3. Restart the Flash by turning it off and then on.

*Adults must assist children in the initial adjustment procedures of the product.

TURN RIGHT
### RIDING RANGE

The maximum range is 12 miles. However, many factors will affect how far you can go per charge:

- **Driving Surface**: A smooth, flat surface will increase driving distance.
- **Weight**: More weight means less distance.
- **Temperature**: Ride, store, and charge the Flash above 50°F.
- **Maintenance**: Timely battery charging will increase driving distance.
- **Driving Style**: Frequent starting and stopping will reduce driving distance.

### CLEANING THE FLASH

To clean the Flash, carefully wipe with a damp cloth, then dry with a dry cloth. Do not use water to clean the Flash, as the electrical and electronic systems may get wet, resulting in personal injury or malfunction of the Flash. If the electric parts or battery get wet, do not power on the Flash. Please contact Jetson Customer Support for assistance.

### BATTERY

- Keep away from fire and excessive heat.
- Avoid intense physical shock, severe vibration, or impact.
- Protect from water or moisture.
- Do not disassemble the Flash or its battery.
- Contact Jetson Customer Support if there are any issues with the battery.

### STORAGE

- Fully charge the battery before storing. The battery should be fully charged once a month after this.
- Cover the Flash to protect against dust.
- Store the Flash indoors, in a dry place.

### DISPOSAL OF USED BATTERY

Battery may contain hazardous substances which could endanger the environment and human health. This symbol marked on the battery and/or packaging indicates that used battery shall not be treated as municipal waste. Batteries should be disposed of at an appropriate collection point for recycling. By ensuring the used batteries are disposed of correctly, you will help preventing potential negative consequences for the environment and human health. The recycling of materials will help to conserve natural resources. For more information about recycling of used batteries, please contact your local municipality waste disposal service.

---

**Connecting to Bluetooth®**

The Flash comes equipped with two Bluetooth® modules - one for the Bluetooth® speaker and one for the Ride Jetson app.

#### To connect to your Bluetooth® speaker:

- Turn on the Flash, and it will become discoverable to your handheld device.
- Activate your Bluetooth® in your handheld device's settings.
- Find the Flash in your handheld device’s list and select it.
- Now you can play your music.

#### To connect to the Ride Jetson app:

- Open the Ride Jetson app on your handheld device.
- Tap the Bluetooth® symbol in the top left corner of the app.
- Select your Flash. Default password is 000000.

To customize your password go to Settings in the App. If you forget your new password, you can factory reset the Flash by recalibrating.
- You should now be connected to the Flash!

#### MODE SETTINGS

In the Ride Jetson app you can choose from three settings:

- **Beginner Mode Max Speed**: Up to 6 mph
- **Intermediate Mode Max Speed**: Up to 8 mph
- **Advanced Mode Max Speed**: Up to 10 mph

**NOTE**: Other features that can be adjusted include Steering Sensitivity, Driving Force, and Auto Shutdown Time.

#### If you are having issues connecting to Bluetooth®, follow these steps:

1. Try restarting the Flash by turning it off and then on.
2. Click the Scan button to refresh.
3. Restart the Ride Jetson app.

### CARE & MAINTENANCE

**RIDING RANGE**

The maximum range is 12 miles. However, many factors will affect how far you can go per charge:

- **Driving Surface**: A smooth, flat surface will increase driving distance.
- **Weight**: More weight means less distance.
- **Temperature**: Ride, store, and charge the Flash above 50°F.
- **Maintenance**: Timely battery charging will increase driving distance.
- **Driving Style**: Frequent starting and stopping will reduce driving distance.

**CLEANING THE FLASH**

To clean the Flash, carefully wipe with a damp cloth, then dry with a dry cloth. Do not use water to clean the Flash, as the electrical and electronic systems may get wet, resulting in personal injury or malfunction of the Flash. If the electric parts or battery get wet, do not power on the Flash. Please contact Jetson Customer Support for assistance.

**BATTERY**

- Keep away from fire and excessive heat.
- Avoid intense physical shock, severe vibration, or impact.
- Protect from water or moisture.
- Do not disassemble the Flash or its battery.
- Contact Jetson Customer Support if there are any issues with the battery.

**STORAGE**

- Fully charge the battery before storing. The battery should be fully charged once a month after this.
- Cover the Flash to protect against dust.

Safety Warnings

- Before use, please read the user manual and safety warnings carefully, and make sure you understand and accept all the safety instructions. The user will be responsible for any loss or damage caused by improper use.
- Before each cycle of operation, the operator shall perform the preoperation checks specified by the manufacturer. That all guards and guards originally supplied by the manufacturer are in proper place and condition; That the braking system is functioning properly; That any and all axle guards, chain guards, or other covers or guards supplied by the manufacturer or in the place or service to be used; That the tires are in good condition, inflated properly, and have sufficient tread remaining; That the area where the product is to be operated should be safe and suitable for safe operation.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Before use, please read the user manual and safety warnings carefully, and make sure you understand and accept all the safety instructions. The user will be responsible for any loss or damage caused by improper use.
- Shielded cables must be used with this unit to ensure compliance with the Class B FCC limits.
- The interference by one or more of the following measures: Which can be determined by turning the equipment off and on, the user is encouraged to try to correct interference to radio communications. However, there is no guarantee that interference will not occur in a frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. Pursuant to Part 15 of the FCC Rules, these limits are designed to provide reasonable protection against such interference when operated in a residential area.
- Warning: This device has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
- Reorient or relocate the receiving antenna.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Use of shielded cables must be used with this unit to ensure compliance with the Class B FCC limits.

California Proposition 65
