What’s in the Box
1. Front LED Lights
2. Power Button
3. Charging Port
4. Charger
5. Charging Cable

1. Get Started

1.1 Charging the Battery
- Only use the included charger
- Plug the charger into the wall before the Charging Port
- Don’t turn on the Flash while it’s charging
- Charge the battery until it is fully charged - up to 3 hours
- Replace the cover over the Charging Port when done

1.2 Indicator Lights
- Charging
- Charge Complete

- Battery Indicator Light
- Status Indicator Light

Warning: The Flash will automatically turn off once the battery power goes below 10% as a safety precaution.

Status Indicator Light - If the Status Indicator Light turns red or if you are having issues with the Flash, you may need to recalibrate it.

1.3 How to Recalibrate
Hold for 5 seconds

Follow these 3 simple steps...
1. Place the Flash on a flat, level surface.
2. Hold the Power button (for about 5 seconds) until you are notified of a successful recalibration.
3. Restart the Flash by turning it off and then on.

2. Make Moves

2.1 Riding the Flash

TURN LEFT

TURN RIGHT

Specs & Features
- Weight限: 220 lb
- Product Weight: 22 lb
- Recommended Age: 12+
- Tire Size: 6.5” All-Terrain Tires
- Max Speed: Up To 10 mph
- Max Range: Up To 12 Miles
- Battery: 24V, 4.8AH Lithium-Ion
- Motor: 180W, Dual Hub Motor
- Charger: UL LISTED, 110-240V
- Charge Time: Up To 3 Hours
- Climbing Angle: Up To 15°
Connecting to Bluetooth

The Flash comes equipped with two Bluetooth modules — one for the Bluetooth® speaker and one for the RideJetson app.

To connect to your Bluetooth® speaker:
- Turn on the Flash, and it will discover and connect to your Bluetooth device automatically.
- Activate your Bluetooth® in your device’s settings.
- If you have a Bluetooth®-equipped device, it will detect the Flash.
- Now you can play your music.

To connect to the RideJetson app:
- Open the RideJetson app on your handheld device.
- Tap the Bluetooth® symbol on the top left corner of the app.
- Select your Flash, then tap “Pair to Bluetooth®” (to customize your password go to settings in the app. If you forget your new password, you can factory reset the Flash by recharging).
- You should now be connected to the Flash!

MODE SETTINGS

In the RideJetson app, you can choose from three settings:
- Beginner Mode Max Speed: Up to 4 mph
- Intermediate Mode Max Speed: Up to 8 mph
- Advanced Mode Max Speed: Up to 10 mph

NOTE: Other features that can be enabled include Sensitive Sensitivity, Driving Force, and Auto Shut-Down Time.

If you are having issues connecting to Bluetooth®, follow these steps:
- 1. Try restarting the Flash by turning it off and then on.
- 2. Click the login button to refresh.
- 3. Restart the RideJetson app.

Care & Maintenance

RISING RANGE

The maximum range is 12 miles. However, many factors will affect how far you can go per charge:
- Charge Surface: A smooth, flat surface will increase driving distance.
- Weight: The more weight, the less distance.
- Temperature: Use of the Flash above 50°F. Maintenance: Battery charging will increase driving distance.
- Driving Style: Frequent starting and stopping will reduce driving distance.

CLEANING THE FLASH:

To clean the Flash, carefully wipe with a damp cloth, then dry with a dry cloth. Do not use water to clean the Flash, as the electrical and electronic systems may get wet, resulting in personal injury or malfunction of the Flash. If the electronic parts or battery get wet, do not power on the Flash. Please contact Jetson Customer Support for assistance.

BATTERY

- Keep away from fire and excessive heat.
- Store the battery in a well-ventilated area.
- Protect from water or moisture.
- Do not short-circuit the battery.
- Do not dispose of the battery in a fire.
- Do not use the battery if it has been dropped or damaged.
- Do not use or charge the battery in temperatures above or below the recommended range.
- Do not expose the battery to direct sunlight or extreme heat.
- Do not store the battery in a place where the temperature is not regulated.
- Do not use or charge the battery if it has been dropped or damaged.
- Do not use or charge the battery in temperatures above or below the recommended range.
- Do not expose the battery to direct sunlight or extreme heat.
- Do not store the battery in a place where the temperature is not regulated.
- Do not use or charge the battery if it has been dropped or damaged.
- Do not use or charge the battery in temperatures above or below the recommended range.
- Do not expose the battery to direct sunlight or extreme heat.
- Do not store the battery in a place where the temperature is not regulated.
- Do not use or charge the battery if it has been dropped or damaged.
- Do not use or charge the battery in temperatures above or below the recommended range.
- Do not expose the battery to direct sunlight or extreme heat.
- Do not store the battery in a place where the temperature is not regulated.
- Do not use or charge the battery if it has been dropped or damaged.
- Do not use or charge the battery in temperatures above or below the recommended range.
- Do not expose the battery to direct sunlight or extreme heat.
- Do not store the battery in a place where the temperature is not regulated.
- Do not use or charge the battery if it has been dropped or damaged.
- Do not use or charge the battery in temperatures above or below the recommended range.
- Do not expose the battery to direct sunlight or extreme heat.
- Do not store the battery in a place where the temperature is not regulated.
- Do not use or charge the battery if it has been dropped or damaged.
- Do not use or charge the battery in temperatures above or below the recommended range.
- Do not expose the battery to direct sunlight or extreme heat.
- Do not store the battery in a place where the temperature is not regulated.
- Do not use or charge the battery if it has been dropped or damaged.
- Do not use or charge the battery in temperatures above or below the recommended range.
- Do not expose the battery to direct sunlight or extreme heat.
- Do not store the battery in a place where the temperature is not regulated.
- Do not use or charge the battery if it has been dropped or damaged.
- Do not use or charge the battery in temperatures above or below the recommended range.
- Do not expose the battery to direct sunlight or extreme heat.
- Do not store the battery in a place where the temperature is not regulated.
- Do not use or charge the battery if it has been dropped or damaged.
- Do not use or charge the battery in temperatures above or below the recommended range.
- Do not expose the battery to direct sunlight or extreme heat.
- Do not store the battery in a place where the temperature is not regulated.
- Do not use or charge the battery if it has been dropped or damaged.
- Do not use or charge the battery in temperatures above or below the recommended range.
- Do not expose the battery to direct sunlight or extreme heat.
- Do not store the battery in a place where the temperature is not regulated.
- Do not use or charge the battery if it has been dropped or damaged.
- Do not use or charge the battery in temperatures above or below the recommended range.
- Do not expose the battery to direct sunlight or extreme heat.
- Do not store the battery in a place where the temperature is not regulated.
- Do not use or charge the battery if it has been dropped or damaged.
- Do not use or charge the battery in temperatures above or below the recommended range.
- Do not expose the battery to direct sunlight or extreme heat.
- Do not store the battery in a place where the temperature is not regulated.
- Do not use or charge the battery if it has been dropped or damaged.
- Do not use or charge the battery in temperatures above or below the recommended range.
- Do not expose the battery to direct sunlight or extreme heat.
- Do not store the battery in a place where the temperature is not regulated.
- Do not use or charge the battery if it has been dropped or damaged.
- Do not use or charge the battery in temperatures above or below the recommended range.
- Do not expose the battery to direct sunlight or extreme heat.
- Do not store the battery in a place where the temperature is not regulated.
- Do not use or charge the battery if it has been dropped or damaged.
- Do not use or charge the battery in temperatures above or below the recommended range.
- Do not expose the battery to direct sunlight or extreme heat.
- Do not store the battery in a place where the temperature is not regulated.
- Do not use or charge the battery if it has been dropped or damaged.
- Do not use or charge the battery in temperatures above or below the recommended range.
- Do not expose the battery to direct sunlight or extreme heat.
- Do not store the battery in a place where the temperature is not regulated.
- Do not use or charge the battery if it has been dropped or damaged.
- Do not use or charge the battery in temperatures above or below the recommended range.
- Do not expose the battery to direct sunlight or extreme heat.
- Do not store the battery in a place where the temperature is not regulated.
- Do not use or charge the battery if it has been dropped or damaged.
- Do not use or charge the battery in temperatures above or below the recommended range.
- Do not expose the battery to direct sunlight or extreme heat.
- Do not store the battery in a place where the temperature is not regulated.
- Do not use or charge the battery if it has been dropped or damaged.
- Do not use or charge the battery in temperatures above or below the recommended range.
- Do not expose the battery to direct sunlight or extreme heat.
- Do not store the battery in a place where the temperature is not regulated.
- Do not use or charge the battery if it has been dropped or damaged.
- Do not use or charge the battery in temperatures above or below the recommended range.
- Do not expose the battery to direct sunlight or extreme heat.
- Do not store the battery in a place where the temperature is not regulated.
