1. Get Started

1.1 Charging the Battery
- Only use the included charger
- Plug the charger into the wall before the Charging Port
- Don’t turn on the Vega while it’s charging
- Charge the battery until it is fully charged - up to 3 hours

CHARGING INDICATOR ON THE CHARGER:
- Charging
- Charge Complete

1.2 Indicator Lights

<table>
<thead>
<tr>
<th>Battery Indicator Light</th>
<th>Percentage</th>

<td>50% +</td>
</tr>
</tbody>
</table>

Warning: The Vega will automatically slow down and lean up once the battery power goes below 10% as a safety precaution.

StatusIndicator Light - Lights up blue when you step onto the Vega. If the Status Indicator Light turns red or if you are having issues with the Vega, you may need to recalibrate it.

1.3 How to Recalibrate

Follow these 3 simple steps...
1. Place the Vega on a flat, level surface and hold still.
2. Hold the Power Button (for about 5 seconds) until you are notified of a successful recalibration.
3. Restart the Vega by turning it off and then on.

1.4 Connecting to Bluetooth®
The Vega comes equipped with Bluetooth® speaker.

To connect to your Bluetooth® speaker:
- Turn on the Vega, and it will become discoverable to your handheld device.
- Activate your Bluetooth® in your handheld device’s settings.
- Find the Vega in your handheld device’s list and select it.
- Now you can play your music.
2. Assembly

2.1 Assembling the Handles

Attach the handle to the bracket using A(×2) and B(×2).

2.2 Adjusting the Foot Rest

Tighten the bolt and lock nut before each ride.
Adjust to preferred length and tighten knob.

2.3 Attaching the Force

Place the Force on top of the Vega.

Pull the Velcro straps tight and fold.

Please Note: Images may not reflect exact appearance of actual product.
3. Make Moves

3.1 Riding the Vega

3.2 Turning the Lights On

Follow these 3 simple steps...
1. Connect the Rear Seat Wire to the Vega Charging Port.
2. Power On Vega - Double press the power button to set the lights to KART mode.
3. Lights are motion activated, and will turn off when still.

Please Note: The Connector should always be connected while riding.

- The default lighting mode will display when the Force and Vega are both connected and powered on.
- Short press the power button to switch between different lighting effects.

3.3 Riding the Force

1. Place the Force on a flat surface with the Vega turned off.
2. Carefully take a seat and place your feet on the Foot Rest.
3. Make sure the Vega is leveled.
4. Now it’s time to turn on your Vega.

Note: If the Vega is not leveled when you turn it on, the Force will go forward or backward immediately. Tighten all screws and locking nuts before each ride to ensure they are tight.
Care & Maintenance

CLEANING:

THE FORCE
To clean the Force, carefully wipe with a damp cloth, then dry with a dry cloth. Do not use water to clean the Force, this may damage the frame or seat.

THE VEGA
To clean the Vega, carefully wipe with a damp cloth, then dry with a dry cloth. Do not use water to clean the Vega, as the electrical and electronic systems may get wet, resulting in personal injury or malfunction of the Vega. If the electric parts or battery get wet, do not power on the Vega. Please contact Jetson Customer Support for assistance.

FEW MUST-DO’S
- Keep away from fire and excessive heat.
- Avoid intense physical shock, severe vibration, or impact.
- Please ride the Force on a smooth, flat surface.
- Protect from water or moisture.
- Contact Jetson Customer Support if there are any issues with the Force.

RIDING RANGE
The maximum range is 12 miles. However, many factors will affect how far you can go per charge:
- Driving Surface: A smooth, flat surface will increase driving distance.
- Weight: More weight means less distance.
- Temperature: Ride, store, and charge the Vega above 50°F.
- Maintenance: Timely battery charging will increase driving distance.
- Riding Style: Frequent starting and stopping will reduce driving distance.

BATTERY
- Keep away from fire and excessive heat.
- Avoid intense physical shock, severe vibration, or impact.
- Protect from water or moisture.
- Do not disassemble the Vega or its battery.
- Contact Jetson Customer Support if there are any issues with the battery.

STORAGE
- Fully charge the battery before storing. The battery should be fully charged once a month after this.
- Cover to protect against dust.
- Store indoors, in a dry place.

MODIFICATIONS
Do not attempt to disassemble, modify, repair, or replace the product or any components of the unit without instruction from Jetson Customer Support. This will void any warranty, and can lead to malfunctions which may cause injury.

ADDITIONAL OPERATION CAUTIONS
Do not lift the product off the ground while it is on and the wheels are in motion. This can result in freely spinning wheels, which may cause injury to yourself or others nearby. Do not jump on or off the product, and do not jump while using it. Always keep your feet firmly planted on the mat sensors while in operation. Always check the battery charge before using.

DISPOSAL OF USED BATTERY
Battery may contain hazardous substances which could endanger the environment and human health. This symbol marked on the battery and/or packaging indicates that used battery shall not be treated as municipal waste. Batteries should be disposed of at an appropriate collection point for recycling. By ensuring the used batteries are disposed of correctly, you will help preventing potential negative consequences for the environment and human health. The recycling of materials will help to conserve natural resources. For more information about recycling of used batteries, please contact your local municipality waste disposal service.
