Kids Electric Scooter

A guide for your ride.

Model: JTS4-PEL
Remember to be safe and most importantly, have fun!
What’s in the Box

1. Handlebar
2. Stem
3. Front Wheel
4. Deck
5. Kickstand
6. Motor
7. Rear Foot E-Brake
8. Rear Wheel
9. Charger
10. Charging Cable

Specs & Features

- Max Speed: Up To 9 mph
- Max Range: Up To 6 Miles
- Motor: 80W
- Battery: 12V, 4.5Ah Lead-Acid
- Charge Time: Up To 6 Hours
- Climbing Angle: Up To 10°
- Product Dimensions: 29.5” x 18.5” x 36.5”
- Handlebar Height: 36.5”
- Deck Size: 19.5” x 5.5”
- Wheel Size: 5.5”
- Product Weight: 17 lb
- Recommended Age: 8+
- Weight Limit: 120 lb
1. Get Started

1.1 Assembling the Handlebar

- Place the Handlebar onto the Stem.
- You can customize the Handlebar placement by using the grooves.
- Place the Metal Guard on top of the Handlebar.
- Secure using 2 Bolts and 2 Nuts.

1.2 Assembling the Stem

Connect the Electrical Connectors (one should clip easily into the other).

- Press in
- Slide down (do not pinch the wires)
- Tighten Bolts
1.3 Charging the Battery

- Only use the included charger
- Plug the charger into the wall before the Charging Port
- Don’t turn on the Scooter while it’s charging
- Charge the battery until it is fully charged - up to 6 hours
- Replace the cover over the Charging Port when done

CHARGING INDICATOR ON THE CHARGER:

- Red - Charging
- Green - Charge Complete

1.4 Turning the Scooter On & Off

Flip the Power Switch to “ON” or “OFF”
1.5 Resetting the Scooter

If you are having issues with the Scooter, you may need to reset it. Follow these 3 simple steps...
1. Place the Scooter on a flat, level surface.
2. Press the Reset Button in.
3. Restart the Scooter by turning it off and then on.

1.6 Using the Rear Foot E-Brake

Using the Rear Foot E-Brake will deactivate the motor.

2. Make Moves

2.1 Riding the Scooter

- Place one foot in front.
- Place the other foot in back, at a 70-90° angle.
- Turn the handlebar to the left or right to make turns.

Please Note: Images may not reflect exact appearance of actual product.
2.2 Using the Thumb Throttle

Quick Note: The Scooter is motion activated, you will need to push forward with one foot (about 5-8 kicks consecutively) before using the Thumb Throttle. Try to take it easy on the throttle until you get used to it.

Care & Maintenance

RIDING RANGE
The maximum range is 6 miles. However, many factors will affect how far you can go per charge:
- Driving Surface: A smooth, flat surface will increase driving distance.
- Weight: More weight means less distance.
- Temperature: Ride, charge, and store the Scooter above 50°F.
- Maintenance: Timely battery charging will increase driving distance.
- Speed and Driving Style: Frequent starting and stopping will reduce driving distance.

CLEANING THE SCOOTER
To clean the Scooter, carefully wipe with a damp cloth, then dry with a dry cloth. Do not use water to clean the Scooter, as the electrical and electronic systems may get wet, resulting in personal injury or malfunction of the Scooter.

BATTERY
- Keep away from fire and excessive heat.
- Avoid intense physical shock, severe vibration, or impact.
- Protect from water or moisture.
- Do not disassemble the Scooter or its battery.
- If there are any issues with the battery, please contact Jetson Customer Support.

STORAGE
- Fully charge the battery before storing. The battery should be fully charged once a month after this.
- Cover the Scooter to protect against dust.
- Store the Scooter indoors, in a dry place.

MODIFICATIONS
Do not attempt to disassemble, modify, repair, or replace the product or any components of the unit without instruction from Jetson Customer Support. This will void any warranty, and can lead to malfunctions which may cause injury.

ADDITIONAL OPERATION CAUTIONS
Do not lift the product off the ground while it is on and the wheels are in motion. This can result in freely spinning wheels, which may cause injury to yourself or others nearby. Do not jump on or off the product, and do not jump while using it. Always keep your feet firmly planted on the deck while in operation. Always check the battery charge before using.

DISPOSAL OF USED BATTERY
Battery may contain hazardous substances which could endanger the environment and human health. This symbol marked on the battery and/ or packaging indicates that used battery shall not be treated as municipal waste. Batteries should be disposed of at an appropriate collection point for recycling. By ensuring the used batteries are disposed of correctly, you will help prevent potential negative consequences for the environment and human health. The recycling of materials will help to conserve natural resources. For more information about recycling of used batteries, please contact your local municipality waste disposal service.
Safety Warnings

- Before use, please read the user manual and safety warnings carefully, and make sure you understand and accept all the safety instructions. The user will be responsible for any loss or damage caused by the unit or its use.
- Before each cycle of operation, the operator shall perform the preoperation checks specified by the manufacturer: That all guards and pads originally supplied by the manufacturer are in proper place and serviceable condition; That the braking system is functioning properly; That any and all axle guards, chain guards, or other covers or guards supplied by the manufacturer are in place and in serviceable condition. That tires are in good condition, inflated properly, and have sufficient tread remaining. The area that the product is to be operated should be safe and suitable for safe operation.
- Operators shall be maintained and operated in accordance with the manufacturer’s specifications and using only the manufacturer’s authorized replacement parts with installation performed by dealers or other skilled persons.
- Warning: Do not recharge non-rechargeable batteries.
- Do not allow hands, feet, hair, body parts, clothing, or similar articles to come in contact with moving parts, wheels, or drive train, while the motor is running.
- This product should not be used by children or persons with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction [IEC 60335-1/A2:2006].
- Unsupervised children shall not be allowed to ride with the product [IEC 60335-1/A2:2006].
- Adult supervision is required.
- The maximum rider weight is 240 lb.
- Units shall not be operated to perform racing, stunt riding, or other maneuvers which may cause loss of control, or may cause uncontrolled operator/passenger actions or reactions.
- If the brake system malfunctions, please adjust with the hexagon wrench, or please contact Jetson Customer Support.
- If the brake loosens, please adjust with the hexagon wrench, or please contact Jetson Customer Support.
- Never use near motor vehicles.
- Do not carry items when riding. This equipment may not cause harmful interference, and (2) this device must accept any interference which may cause unacceptable degradation of the service.
- This equipment complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference which may cause unacceptable degradation of the service.
- WARNING: This product can expose you to a chemical such as Chromium that is known to the state of California to cause cancer or birth defects or other reproductive harm. For more information go to www.p65warnings.ca.gov/product

California Proposition 65

This product may contain a chemical that is known to the State of California to cause cancer or birth defects or other reproductive harm. For more information go to www.p65Warnings.ca.gov/product

NOTICE OF COMPLIANCE

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user’s authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Shielded cables must be used with this unit to ensure compliance with the Class B FCC limits.
