MotoKicks Hover Shoes.

A guide for your ride.

Model: JMOTO-BLK
Remember to be safe and most importantly, have fun!
What’s in the Box

1. Power Button
2. Mat Sensor
3. Carrying Handle
4. LED Lights
5. Charging Port
   (On opposite side)
6. Wheel
7. Connector Attachment
8. Charger
9. Charging Cable

Specs & Features

- Product Dimensions: L10.6” x W4.5” x H5.5” each
- Weight Limit: 220 lb
- Total Weight: 6.6 lb each
- Recommended Age: 12+
- Wheel Size: 3.5”
- Max Speed: Up To 7 mph
- Max Range: Up To 6 Miles
- Battery: 25.9V, 1.9Ah Lithium-Ion each
- Motor: 250W Hub Motor each
- Charger: 100-240V
- Charge Time: Up To 3 Hours
- Climbing Angle: Up To 10°
1. Get Started

Battery Care Tips

- Only use the included charger.
- Plug the charger into the wall before the Charging Port.
- Don’t turn on the MotoKicks while it’s charging.
- Charge the battery until it is fully charged before using - up to 3 hours.
- Replace the cover over the Charging Port when done.

- Charging
- Charge Complete

Warning: The MotoKicks will automatically turn off once the battery power goes below 10% as a safety precaution.

How to Recalibrate

Follow these 3 simple steps:

1. Turn the MotoKicks off and place them on a flat, level surface.
2. Hold each Power Button (for about 5 seconds) until the lights flash and the MotoKicks beep.
3. Restart the MotoKicks by turning them off and then on.
2. Make Moves

Getting on the MotoKicks

1. Power On
   Place on level ground, then turn on each MotoKicks.

2. Balance Mode
   Gently tilt each MotoKicks and they will self-stabilize.

3. Get Going!
   Step on one at a time and get ready to ride!

Riding the MotoKicks

- Step onto the MotoKicks from either side.
- Apply gentle pressure in the direction you would like to go.
- Lean slightly forward to move forward.
- Lean slightly backward to move in reverse or brake.
- The MotoKicks will automatically slow down if you lean too far forward.
- Keep your balance as you lean left or right to turn.
- To step off the MotoKicks, first come to a complete stop. Then, step back one foot at a time.
- Do not lift off the ground once powered on.
- Do not touch the wheel with any part of your body.

Note: Remember to turn off the MotoKicks to save battery life.
*Adults must assist children in the initial assembly and adjustment procedures to fold/unfold product and adjust handlebar to height.

Please Note: Images may not reflect exact appearance of actual product.
DISPOSAL OF USED BATTERY

Battery may contain hazardous substances which could endanger the environment and human health. This symbol marked on the battery and/or packaging indicates that used battery shall not be treated as municipal waste. Batteries should be disposed of at an appropriate collection point for recycling. By ensuring the used batteries are disposed of correctly, you will help preventing potential negative consequences for the environment and human health. The recycling of materials will help to conserve natural resources. For more information about recycling of used batteries, please contact your local municipality waste disposal service.

Care & Maintenance

Connector Attachment

1. Remove the 2 screws on the side of each MotoKick. (Do not remove the screws on the side with the Battery Indicator Lights).
2. Remove the side plates.
3. Slide the attachment into the side of each MotoKick.
4. Tighten using the screws that are packaged with the attachment. Make sure the attachment is tight and secure before riding.

Note: Do not carry the MotoKicks by the Connector Attachment. This accessory is not covered by the warranty.

RIDING RANGE
The maximum range is 6 miles. However, many factors will affect how far you can go per charge:
- Driving Surface: A smooth, flat surface will increase driving distance.
- Weight: More weight means less distance.
- Temperature: Ride, charge, and store the MotoKicks above 50°F.
- Maintenance: Timely battery charging will increase driving distance.
- Speed and Driving Style: Frequent starting and stopping will reduce driving distance.

CLEANING
To clean the MotoKicks, first make sure they are turned off and the Charging Ports are covered. Carefully wipe with a damp cloth, then dry with a dry cloth. Do not use water to clean the MotoKicks, as the electrical and electronic systems may get wet, resulting in personal injury or malfunction of the MotoKicks.

BATTERY
- Keep away from fire and excessive heat.
- Avoid intense physical shock, severe vibration, or impact.
- Protect from water or moisture.
- Do not disassemble the MotoKicks.
- If there are any issues with the battery, please contact Jetson Customer Support.

STORAGE
- Fully charge each battery before storing. Each battery should be fully charged once a month after this.
- To protect against dust, cover the MotoKicks.
- Store the MotoKicks indoors, in a dry place and at a suitable temperature for charging.

Safety Warnings

- Before use, please read the user manual and safety warnings carefully, and make sure you understand and accept all the safety instructions. The user will be responsible for any damage caused by its use.

- Before each cycle of operation, the operator shall perform the preoperation checks specified by the manufacturer: That all guards and pads originally supplied by the manufacturer are in proper place and in serviceable condition; That the braking system is functioning properly; That any and all axle guards, chain guards, or other covers or guards supplied by the manufacturer are in place and in serviceable condition. That tires are in good condition, inflated properly, and have sufficient tread remaining. The area that the product is to be operated should be safe and suitable for safe operation.

- Operators shall be maintained in repair and agreement with the manufacturer’s specifications and using only the manufacturer’s authorized replacement parts with installation performed by dealers or other skilled persons.

- Shielded cables must be used with this unit to ensure compliance with the Class B FCC limits.

- This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. The user is encouraged to try to correct the interference by one of the following measures:
  1. Move the receiving antenna.
  2. Reorient or relocate the receiving antenna.
  3. Increase the separation between the equipment and receiver.
  4. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

- This product has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:
  1. Reorient or relocate the receiving antenna.

- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
