Plasma Illuminated Hoverboard.

A guide for your ride.

Models: JPLSM-BLK | JPLSM-IRS
Remember to be safe and most importantly, have fun!
What's in the Box

1. Charging Port
2. Power Button
3. Charger

Specs & Features

- Max Speed: Up To 10 mph
- Max Range: Up To 10 Miles
- Battery: 36V, 2.5Ah Lithium-Ion
- Motor: 500W, Dual Hub Motor (250W x 2)
- Climbing Angle: Up To 15°
- Product Weight: 16 lb
- Tire Size: 6.5"
- Product Dimensions: L23.5" x W7.3" x H7"
- Charger: UL LISTED, 100-130V
- Charge Time: Up To 3 Hours
- Recommended Age: 12+
- Weight Limit: 220 lb

Note: Please fully charge the battery prior to use.
1. Get Started

1.1 Charging the Battery

- Only use the included charger
- Plug the charger into the wall before the Charging Port
- Don’t turn on the Plasma while it’s charging
- Charge the battery until it is fully charged - up to 3 hours

Indicator Light

- Charging
- Charge Complete

1.2 Indicator Lights

**Status Light:** If these lights turn red or if you are having issues with the Plasma, you may need to recalibrate it.

**Warning:** The Plasma will automatically tilt up and slow down once the battery power goes below 10% as a safety precaution.

1.3 How to Recalibrate

Follow these 3 simple steps...

1. Place the Plasma on a flat, level surface and hold still.
2. Hold the Power Button (for about 5 seconds) until you are notified of a successful recalibration.
3. Restart the Plasma by turning it off and then on.

*Adults must assist children in the initial adjustment procedures of the product.*
2. Make Moves

2.1 Riding the Plasma

NEUTRAL

TURN LEFT

TURN RIGHT

2.2 Turning the Lights On

• The default lighting mode will display when the Plasma is powered on.
• Short press the power button to switch between different lighting effects.
RIDING RANGE
The maximum range is 10 miles. However, many factors will affect how far you can go per charge:

• Driving Surface: A smooth, flat surface will increase driving distance.
• Weight: More weight means less distance.
• Temperature: Ride, store, and charge the Plasma above 50°F.
• Maintenance: Timely battery charging will increase driving distance.
• Driving Style: Frequent starting and stopping will reduce driving distance.

CLEANING THE PLASMA
To clean the Plasma, carefully wipe with a damp cloth, then dry with a dry cloth. Do not use water to clean the Plasma, as the electrical and electronic systems may get wet, resulting in personal injury or malfunction of the Plasma. If the electric parts or battery get wet, do not power on the Plasma. Please contact Jetson Customer Support for assistance.

BATTERY
• Keep away from fire and excessive heat.
• Avoid intense physical shock, severe vibration, or impact.
• Protect from water or moisture.
• Do not disassemble the Plasma or its battery.
• Contact Jetson Customer Support if there are any issues with the battery.

STORAGE
• Fully charge the battery before storing. The battery should be fully charged once a month after this.
• Cover the Plasma to protect against dust.
• Store the Plasma indoors, in a dry place.

MODIFICATIONS
Do not attempt to disassemble, modify, repair, or replace the product or any components of the unit without instruction from Jetson Customer Support. This will void any warranty, and can lead to malfunctions which may cause injury.

ADDITIONAL OPERATION CAUTIONS
Do not lift the product off the ground while it is on and the wheels are in motion. This can result in freely spinning wheels, which may cause injury to yourself or others nearby. Do not jump on or off the product, and do not jump while using it. Always keep your feet firmly planted on the mat sensors while in operation. Always check the battery charge before using.

DISPOSAL OF USED BATTERY
Battery may contain hazardous substances which could endanger the environment and human health. This symbol marked on the battery and/or packaging indicates that used battery shall not be treated as municipal waste. Batteries should be disposed of at an appropriate collection point for recycling. By ensuring the used batteries are disposed of correctly, you will help preventing potential negative consequences for the environment and human health. The recycling of materials will help to conserve natural resources. For more information about recycling of used batteries, please contact your local municipality waste disposal service.
Safety Warnings

- Before use, please read the user manual and safety warnings carefully, and make sure you understand and accept all the safety instructions. The user will be responsible for any damage caused by improper use.

- Before each cycle of operation, the operator shall perform the preoperation checks specified by the manufacturer: That all guards and pads originally supplied by the manufacturer are in proper place and adjustment; That the locking system is functioning properly; That any and all axle guards, chain guards, or other covers or guards supplied by the manufacturer are in place and in serviceable condition; That tires are in good condition, inflated properly, and have sufficient tread remaining; The area that the product is to be operated should be safe and suitable for safe operation.

- Certificate of compliance shall be maintained with the user in good condition, inflated properly, and have sufficient tread remaining; The area that the product is to be operated should be safe and suitable for safe operation.

- Components shall be maintained and repaired in accordance with the manufacturer’s specifications and using only the manufacturer’s authorized replacement parts with installation performed by dealers or other skilled persons.

- Operators always shall use appropriate protective clothing, including but not limited to a helmet, with proper certification, and any other equipment recommended by the manufacturer: Always wear protective equipment such as helmet, knee pads, and elbow pads.

- Always wear shoes and keep shoelaces tied.

- Make sure your feet are located securely on the deck.

- Operators always shall use appropriate protective clothing, including but not limited to a helmet, with proper certification, and any other equipment recommended by the manufacturer: Always wear protective equipment such as helmet, knee pads, and elbow pads.

- Always give way to pedestrians.

- Be alert to things in front and far away from you.

- Do not carry items when riding.

- Do not ride after drinking or taking prescription medication.

- Do not carry items when riding.

- Do not ride at night.

- Do not ride at high speeds, on uneven terrain, or on slopes. Do not perform stunts or turn abruptly.

- Do not allow distractions when riding, such as answering the phone or engaging in any other activities.

- The product cannot be ridden by more than one person.

- When you ride the product along with other riders, always keep a safe distance to avoid accidents.

- When turning, be sure to maintain your balance.

- When turning, be sure to maintain your balance.

- Riding with improperly adjusted brakes is dangerous and can result in serious injury or death.

- Avoid riding around flammable gas, steam, liquid, or dust that could cause fire.
