Status Light: If this light turns red or if you are having issues with the Rave, you may need to recalibrate it.
Balance Light: Active Balance Technology is on, which levels the Rave as you ride.
Power Light: The Rave is powered on.

Warning: The Rave will automatically turn off once the battery power goes below 10% as a safety precaution.

1.3 How to Recalibrate

Follow these 3 simple steps...

1. Place the Rave on a flat, level surface.
2. Hold the Power Button (for about 5 seconds) until you are notified of a successful recalibration.
3. Restart the Rave by turning it off and then on.

*Adults must assist children in the initial adjustment procedures of the product.
2. Make Moves

2.1 Riding the Rave

- **Neutral**

- **Turn Left**

- **Turn Right**
Connecting to Bluetooth®
The Rave comes equipped with two Bluetooth® modules - one for the Bluetooth® speaker and one for the Ride Jetson app.

To connect to your Bluetooth® speaker:
• Turn on the Rave, and it will become discoverable to your handheld device.
• Activate your Bluetooth® in your handheld device's settings.
• Find the Rave in your handheld device's list and select it.
• Now you can play your music.

To connect to the Ride Jetson app:
• Open the Ride Jetson app on your handheld device.
• Tap the Bluetooth® symbol in the top left corner of the app.
• Select your Rave. Default password is 000000.
• To customize your password go to Settings in the App. If you forget your new password, you can factory reset the Rave by recalibrating.
• You should now be connected to the Rave!

MODE SETTINGS
In the Ride Jetson app you can choose from three settings:
• Beginner Mode Max Speed: Up to 8 mph
• Intermediate Mode Max Speed: Up to 10 mph
• Advanced Mode Max Speed: Up to 12 mph
NOTE: Other features that can be adjusted include Steering, Driving Force, and Auto Shutdown Time.

If you are having issues connecting to Bluetooth®, follow these steps:
1. Try restarting the Rave by turning it off and then on.
2. Click the Scan button to refresh.
3. Restart the Ride Jetson app.

Care & Maintenance

RIDING RANGE
The maximum range is 10 miles. However, many factors will affect how far you can go per charge:
• Driving Surface: A smooth, flat surface will increase driving distance.
• Weight: More weight means less distance.
• Temperature: Ride, charge, and store the Rave above 50°F.
• Maintenance: Timely battery charging will increase driving distance.
• Speed and Driving Style: Frequent starting and stopping will reduce driving distance.

CLEANING THE RAVE
To clean the Rave, carefully wipe with a damp cloth, then dry with a dry cloth. Do not use water to clean the Rave, as the electrical and electronic systems may get wet, resulting in personal injury or malfunction of the Rave.

BATTERY
• Keep away from fire and excessive heat.
• Avoid intense physical shock, severe vibration, or impact.
• Protect from water or moisture.
• Do not disassemble the Rave or its battery.
• If there are any issues with the battery, please contact Jetson Customer Support.

STORAGE
• Fully charge the battery before storing. The battery should be fully charged once a month after this.
• Cover the Rave to protect against dust.
• Store the Rave indoors, in a dry place.

MODIFICATIONS
Do not attempt to disassemble, modify, repair, or replace the product or any components of the unit without instruction from Jetson Customer Support. This will void any warranty, and can lead to malfunctions which may cause injury.

ADDITIONAL OPERATION CAUTIONS
Do not lift the product off the ground while it is on and the wheels are in motion. This can result in freely spinning wheels, which may cause injury to yourself or others nearby. Do not jump on or off the product, and do not jump while using it. Always keep your feet firmly planted on the mat sensors while in operation. Always check the battery charge before using.

DISPOSAL OF USED BATTERY
Battery may contain hazardous substances which could endanger the environment and human health. This symbol marked on the battery and/or packaging indicates that used battery shall not be treated as municipal waste. Batteries should be disposed of at an appropriate collection point for recycling. By ensuring the used batteries are disposed of correctly, you will help preventing potential negative consequences for the environment and human health. The recycling of materials will help to conserve natural resources. For more information about recycling of used batteries, please contact your local municipality waste disposal service.

Safety Warnings

Before use, please read the user manual and safety warnings carefully, and make sure you understand and accept all the safety instructions. The user will be responsible for any loss or damage caused by improper use.

Before each cycle of operation, the operator shall perform the preoperation checks specified by the manufacturer. That all guards and pads originally supplied by the manufacturer are in proper place and functioning properly; That the braking system is functioning properly; That any and all axle guards, chain guards, or other covers or guards supplied by the manufacturer are in place prior to operation; That the tires are in good condition, inflated properly, and have sufficient tread remaining; That the area that the product is to be operated should be safe and suitable for safe operation.

Consult the dealer or an experienced radio/ TV technician for help. 

Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

• Reorient or relocate the receiving antenna.
• Increase the separation between the equipment and receiver.
• Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
• Consult the dealer or an experienced radio/ TV technician for help.

Shielded cables must be used with this unit to ensure compliance with the Class B FCC limits.
