Sphere All-Terrain Hoverboard.

A guide for your ride.

Model: JSPHER-BLK | JSPHER-PUR | JSPHER-TEL
JSPHER-RED | JSPHER-PNK | JSPHER-NBL
Remember to be safe and most importantly, have fun!
What’s in the Box

1. Top LED Lights
2. Power Button
3. Charging Port
4. Charger

Please fully charge the battery prior to use.

Specs & Features

- Weight Limit: 220 lb
- Product Weight: 17 lb
- Product Dimensions: 23.50” × 7.50” × 7.25”
- Recommended Age: 13+
- Tire Size: 6.5” All-Terrain Tires
- Max Speed: Up To 10 mph
- Max Range: Up To 10 Miles
- Battery: 36V, 2.0Ah Lithium-Ion
- Motor: 400W Dual Hub
- Charger: UL LISTED, 110-240V
- Charge Time: Up To 3 Hours
- Climbing Angle: Up To 10°
1. Get Started

1.1 Charging the Battery

- Only use the included charger
- Plug the charger into the wall before the Charging Port
- Don’t turn on the Sphere while it’s charging
- Charge the battery until it is fully charged - up to 3 hours
- Replace the cover over the Charging Port when done

- Charging
- Charge Complete

**Status Light:** If this light turns red or if you are having issues with the Sphere, you may need to recalibrate it.

**Balance Light:** Active Balance Technology is on, which levels the Sphere as you ride.

**Power Light:** The Sphere is powered on.

Warning: The Sphere will automatically turn off once the battery power goes below 10% as a safety precaution.

1.3 How to Recalibrate

Follow these 3 simple steps...

1. Place the Sphere on a flat, level surface.
2. Hold the Power Button (for about 5 seconds) until you are notified of a successful recalibration.
3. Restart the Sphere by turning it off and then on.

*Adults must assist children in the initial adjustment procedures of the product.*

Care & Maintenance

RIDING RANGE
The maximum range is 10 miles. However, many factors will affect how far you can go per charge:

- **Driving Surface**: A smooth, flat surface will increase driving distance.
- **Weight**: More weight means less distance.
- **Temperature**: Ride, store, and charge the Sphere above 50°F.
- **Maintenance**: Timely battery charging will increase driving distance.
- **Driving Style**: Frequent starting and stopping will reduce driving distance.

CLEANING THE Sphere
To clean the Sphere, carefully wipe with a damp cloth, then dry with a dry cloth. Do not use water to clean the Sphere, as the electrical and electronic systems may get wet, resulting in personal injury or malfunction of the Sphere. If the electric parts or battery get wet, do not power on the Sphere. Please contact Jetson Customer Support for assistance.

BATTERY
- Keep away from fire and excessive heat.
- Avoid intense physical shock, severe vibration, or impact.
- Protect from water or moisture.
- Do not disassemble the Sphere or its battery.
- Contact Jetson Customer Support if there are any issues with the battery.

STORAGE
- Fully charge the battery before storing. The battery should be fully charged once a month after this.
- Cover the Sphere to protect against dust.
- Store the Sphere indoors, in a dry place.

MODIFICATIONS
Do not attempt to disassemble, modify, repair, or replace the product or any components of the unit without instruction from Jetson Customer Support. This will void any warranty, and can lead to malfunctions which may cause injury.

ADDITIONAL OPERATION CAUTIONS
Do not lift the product off the ground while it is on and the wheels are in motion. This can result in freely spinning wheels, which may cause injury to yourself or others nearby. Do not jump on or off the product, and do not jump while using it. Always keep your feet firmly planted on the mat sensors while in operation. Always check the battery charge before using.

DISPOSAL OF USED BATTERY
Battery may contain hazardous substances which could endanger the environment and human health. This symbol marked on the battery and/or packaging indicates that used battery shall not be treated as municipal waste. Batteries should be disposed of at an appropriate collection point for recycling. By ensuring the used batteries are disposed of correctly, you will help prevent potential negative consequences for the environment and human health. The recycling of materials will help to conserve natural resources. For more information about recycling of used batteries, please contact your local municipality waste disposal service.
Safety Warnings

Before use, please read the user manual and safety warnings carefully, and make sure you understand and accept all the safety instructions. The user will be responsible for any loss or damage caused by improper use.

Before each cycle of operation, the operator shall perform the preoperation checks specified by the manufacturer. That all guards and pads originally supplied by the manufacturer are in proper place, and in proper condition; That the braking system is functioning properly; That any and all axle guards, chain guards, or other covers or guards supplied by the manufacturer for the product are in place properly; That all tires are in good condition, inflated properly, and have sufficient tread remaining; The area that the product is to be operated should be safe and suitable for safe operation.

Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Shielded cables must be used with this unit to ensure compliance with the Class B FCC limits.
