1. Get Started

1.1 Charging the Battery
- Only use the included charger
- Plug the charger into the wall before the Charging Port
- Don’t turn on the Strike while it’s charging
- Charge the battery until it is fully charged - up to 3 hours
- Replace the cover over the Charging Port when done

1.2 Indicator Lights

1.3 How to Recalibrate
- Hold for 5 seconds

1.4 How to Change Speed
- The Strike has three speed settings & each setting has a different colored indicator light:
  - Green for beginner (slow) mode
  - Yellow for intermediate (medium) mode
  - Red for advanced (fast) mode

Follow these 3 simple steps to choose your mode...
1. Place the Strike on its side.
2. Power the Strike on—the indicator light will illuminate red for advanced (fast) mode.
3. Quickly press and release the power button to cycle through the speed modes. Stop once the indicator light changes to the respective color of your desired speed.

Please Note: The default setting is advanced (fast) mode.

2. Make Moves

2.1 Riding the Strike

Battery Indicator Light

Percentage | < 20% | 20-49% | 50% +

Warning: The Strike will automatically turn off once the battery power goes below 10% as a safety precaution.

Status Indicator Light • If the Status Indicator Light turns red or if you are having issues with the Strike, you may need to recalibrate it.

Follow these 3 simple steps to choose your mode...
1. Place the Strike on its side.
2. Power the Strike on—the indicator light will illuminate red for advanced (fast) mode.
3. Quickly press and release the power button to cycle through the speed modes. Stop once the indicator light changes to the respective color of your desired speed.

Please Note: When you turn off the Strike, it will return to the original factory setting—advanced (fast) mode.

*Adults must assist children in the initial adjustment procedures of the product.

Specs & Features
- Weight Limit: 220 lbs
- Product Weight: 16 lbs
- Product Dimensions: 23.5" x 7" x 7"
- Recommended Age: 12+
- Tire Size: 6.5" All-Terrain Tires
- Max Speed: Up To 9 mph
- Max Range: Up To 10 Miles
- Battery: 36V, 2.0Ah Lithium-Ion
- Motor: 400W, Dual Hub Motor
- Charger: UL LISTED, 100-130V
- Charge Time: Up To 3 Hours
- Climbing Angle: Up To 15°
Safety Warnings

- Before use, please read the user manual and safety warnings carefully, and make sure you understand and accept all the safety instructions. The user will be responsible for any loss or damage caused by improper use.

- Before each cycle of operation, the operator shall perform the preoperation checks to ensure the scooter is in good condition, proper working order, and has sufficient tread remaining. The area that the scooter is to be operated should be safe and suitable for the type of operation being performed.

- Components shall be maintained and replaced in accordance with the manufacturer’s specifications and using only the manufacturer’s authorized replacement parts.

- Do not disassemble the scooter or battery.

- Contact Jetson Customer Support for assistance.

BATTERY

- Keep away from fire and excessive heat.

- Avoid intense physical shock, severe vibration, or impact.

- Protect from water or moisture.

- Do not disassemble the battery or its components.

- Contact Jetson Customer Support if there are any issues with the battery.

STORAGE

- Fully charge the battery before storing. The battery should be fully charged once a month after this.

- Cover the scooter to protect against dust.

- Store the scooter indoors, in a dry place.

MODIFICATIONS

- Do not attempt to disassemble, modify, repair, or replace the product or any components of the unit without the instruction from Jetson Customer Support. This will void any warranty, and can lead to malfunctions which may cause injury.

ADDITIONAL OPERATION CAUTIONS

- Do not sit on the product off the ground while it is on and the wheels are in motion. This can result in spinning wheels, which may cause injury to yourself or others nearby. Do not jump on or off the product, and do not jump while using it. Always keep your feet firmly planted on the motor wheel in operation. Always check the battery charge before using.

California Proposition 65

WARNING: This product contains chemicals known to the State of California to cause cancer or birth defects or other reproductive harm. For more information go to www.p65warnings.ca.gov.

DISPOSAL OF USED BATTERY

- Battery may contain hazardous substances which could endanger human health and the environment. This symbol marks the battery (and packaging indicates that used battery shall not be treated as municipal waste. Batteries should be disposed of at an appropriate collector point for recycling. By ensuring the used batteries are disposed of correctly, you will help prevent potential negative consequences for the environment and human health. The recycling of materials will help to conserve natural resources.

For more information about recycling of used batteries, please contact your local municipality waste disposal service.
