SHOPPING
LIST**

GLOWING SKIN,
BEACHY HAIR

SERIOUS SKINCARE
THE MOST POWERFUL SERUMS

INNER BEAUTY

Glowing skin, healthier hair and the promise of better brain health in the form of potions, pills and powders? Yes, please.

BOOSTERS Stamba Creamy Maca Matcha merges a superfood tea blend with mood-boosting ingredients; the CBD category expands this spring (and this time, with something made especially for women) with the introduction of Winged CBD and its Happiness Capsules; Sakara's new Hemp Chocolates satisfy sugar cravings and dish out a bit of relaxation in the process; in a foray into the limited-edition field, Dirty Lemon's latest elixir, +white rose, promises to support healthy skin and up hydration; and The Nue Co Nootro-Focus is backed by a bunch of science, psychostimulants and patented ingredients to amp mental clarity.

REBOOT The brand made a name for itself with its tools, and now ReFa is getting into the collagen drink game with the new Collagen Enrich; poised as a "before a big event" prep, Glotriton 10 Day Quick Glo delivers a speedy skin refresh; Bend Beauty's Anti-Aging formula features a high percentage of fish and borage oils, and even claims to help increase skin's resistance to UV rays; and achieving #hairgoals gets easier with Moon Juice Super Hair's bioactive-packed pill and Grow Girl Let It Grow gummies, which contain biotin and vitamin B12 and are scientifically proven to help improve hair growth in less than 30 days.

DETOX + GLOW Biocol Labs something for a detox week is the doctor-approved, very modern apothecary answer to supplementing or resetting a healthy diet; scoop or sprinkle The Gut Lab Glow powder into a smoothie, salad or dish for some extra superfood power; HUM Nutrition Skin Heroes Pre+Probiotic targets problematic skin, including acne; Bali Glow may look pretty, but the potent spirulina powder has a high dose of protein and calcium; and chef-created Just Add Water keeps things simple with an all-in-one powder that includes alkalizing greens, antioxidants and antifungal superfoods.
