8	000430	BLACK TIE CABLE 15" LONG	6
9	047241	FLASHER KD 2590-001	1

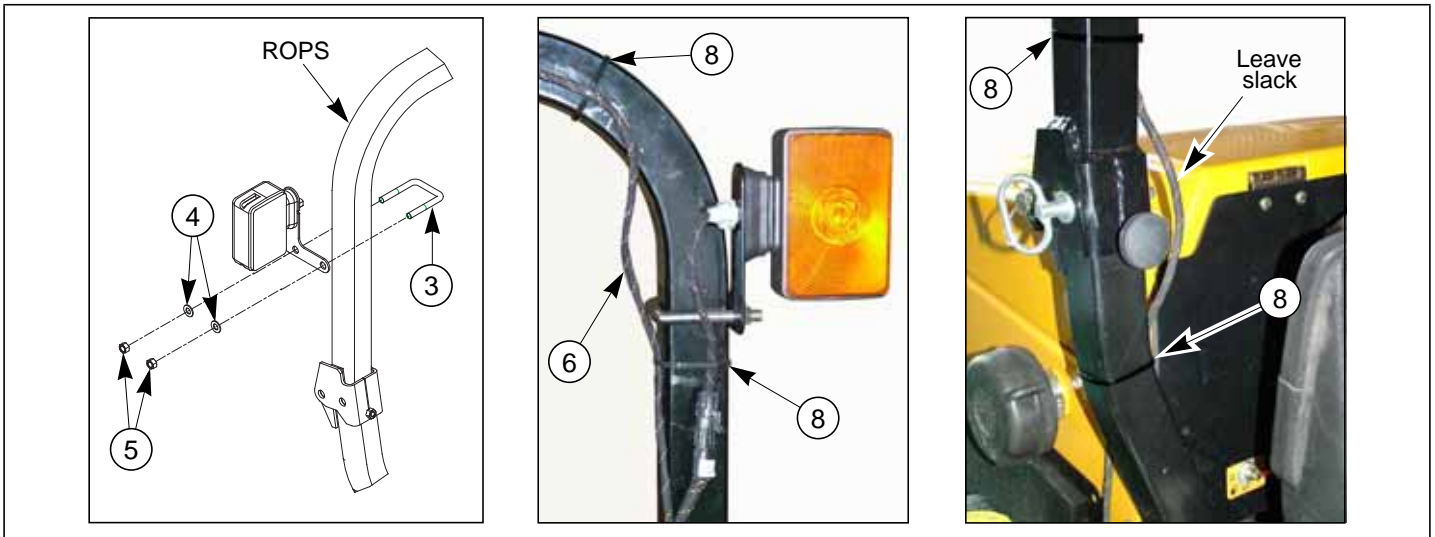

**Assembly**

1. Park the mower on a solid, level surface, set park brakes and shut-off engine.
2. Attach brackets to lights installing them to be left and right. Fig. 1

**Fig. 1**

3. Attach light and bracket to ROPS just below the bend. Attach lights to wire harness and route down the right side ROPS post. Tie the wire harness to the ROPS at specified locations. Leave slack in harness at ROPS pivot joint. Fig. 2

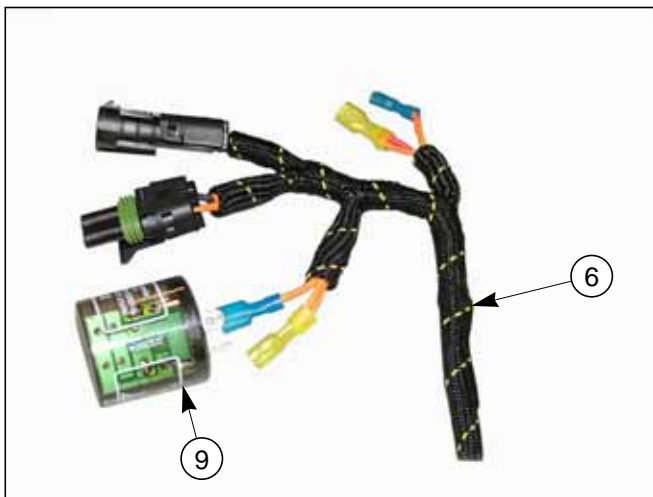

**Fig. 2**

4. Remove instrument panel. With a sharp utility knife, cut a slot in instrument panel decal for the switch and insert switch. Make sure that the on “I” position of the switch is facing away from the operator. Fig. 3

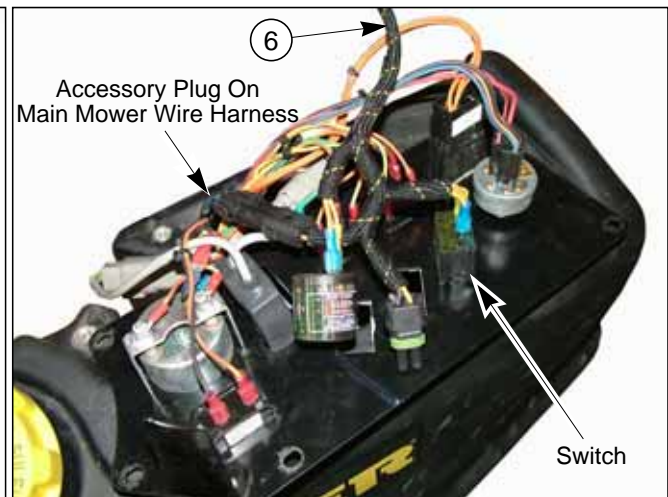

**Fig. 3**

5. Attach flasher to wiring harness (Fig. 4). Locate the accessory plug on the mower wire harness and plug the light harness into the accessory plug. Connect the two remaining leads to the light switch. Reattach the instrument panel. Fig. 5

**Fig. 4**

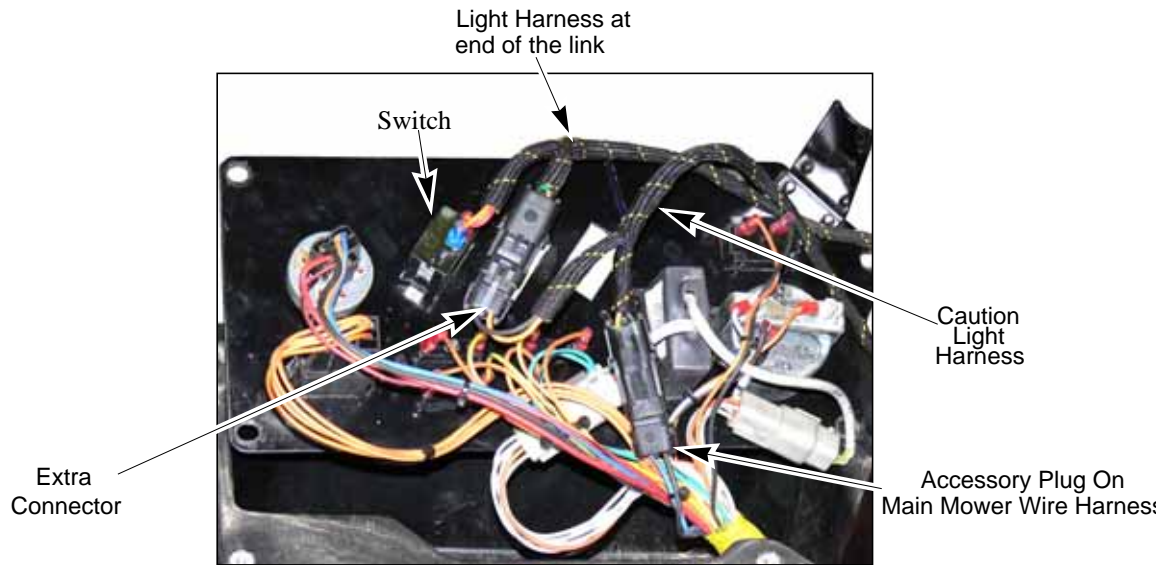

**Fig. 5**

6. Route wire harness through the opening at the lower rear end of the control panel. Make certain that no wires get pinched. Fig. 6

**Fig. 6**

**NOTE:** Should a mower be equipped with more electrical accessories, put the light wire harness at the end of the accessory link since it does not have an extra connector. Fig. 7

**Fig. 7**

**WARNING:** The wiring system on Hustler® Turf equipment is designed for use with Hustler® Turf electrical attachments. Use only Hustler® Turf electrical attachments with your mower.
