

SP Hinges Installation Guide:

WE DO NOT RECOMMEND INSTALLING THE HINGES WITH THE MOTHERBOARD OR LCD INSTALLED. **INSTALL THE HINGES FIRST**

1. Place the hinge cap on the hinges.
2. Then place the hinges in the shell's socket and **keep track of where the small gap** (entrance to the hinge cap, circled in the picture) **is situated**.
3. Turn the hinge until it looks like the picture, or until you can not turn it anymore.
4. Make sure the gap is facing slightly down (look at the picture for reference).
5. The right hinge it should be facing the light indicator
6. The left hinge should be facing the power switch.
7. Then with push in the hinge with a small rubber mallet **LIGHTLY** or pushing it in with your hand
