

BIO-CLEAR™

ALL IN-ONE BENEFICIAL BACTERIA

Pond Biologics® Beneficial Bacteria is scientifically formulated to enhance the water quality of koi ponds and water features.

- ✓ Accelerates the breakdown process of all organic waste
- ✓ Naturally recycles organic debris reducing sediment accumulation
- ✓ Reduces algae feeding nutrients
- ✓ Promotes cleaner water for a healthier ecosystem
- ✓ For use in water temperatures above 50° F
- ✓ Eliminates noxious odors caused by dead algae and fish waste
- ✓ Environmentally friendly. Safe for all fish, wildlife, plants, and humans
- ✓ Includes a measuring scoop for easier application
- ✓ Easy to use dry powder mix

Application Rate:

Apply treatment every two weeks. Sprinkle Pond Biologics® Beneficial Bacteria Treatment directly onto the surface of the water.

Approximately 34 scoops per container. One 2 pound container treats 85,000 gallons of water.
