Safety Instructions

Please read the following instructions before attempting to assemble, operate, or install this product. Save these instructions for future reference.

WARNING: Use only with flat panel TVs and audio/video equipment meeting recommended size and weight limits. Never use it with any larger/heavier than recommended flat panel TVs or equipment. To avoid instability, place flat panel TV in the centre of the unit; the base of the television must be able to rest on the supporting surface of the unit without hanging over the edge. Improperly positioned flat panel TVs, or other equipment that exceed recommended size and weight limits could fall off or break the unit, causing possible serious injury.

Pre-Assembly

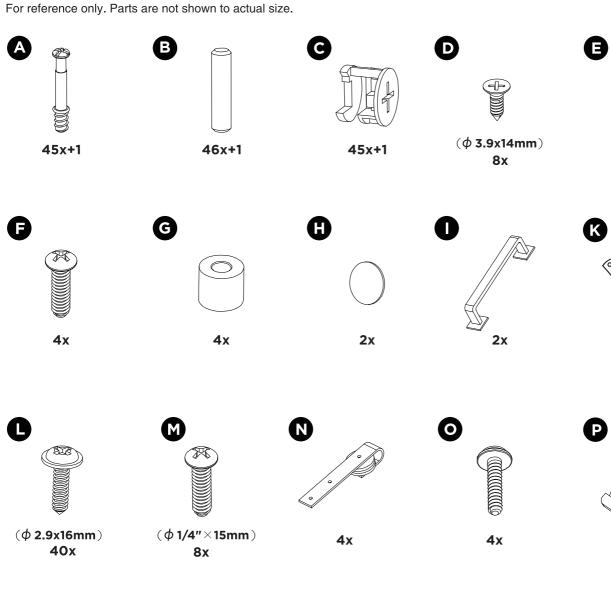

Before assembly, remove all parts from the package and compare with the below parts list. If any part appears missing or damaged, do not assemble this product and contact our customer service team at support@turbro.com.

INSTALLATION WARNINGS

- The TV stand is heavy and should be assembled near its desired location.
- It is recommended that two people move the fully-assembled TV stand to prevent injury.
- Make sure that the unit is installed so that any power cords are not compressed against or caught on the TV stand and that it has an unobstructed path to a grounded power outlet.

BEFORE INSTALLATION

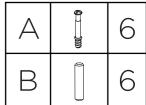

Open the unit and check carefully for visible damage. If you have any problems with installation, operation, missing parts, or other damage, please contact the TURBRO customer service team. Do not dispose of packaging until you are satisfied with your fireplace. Contact the TURBRO customer service team (support@turbro.com) before returning the unit.

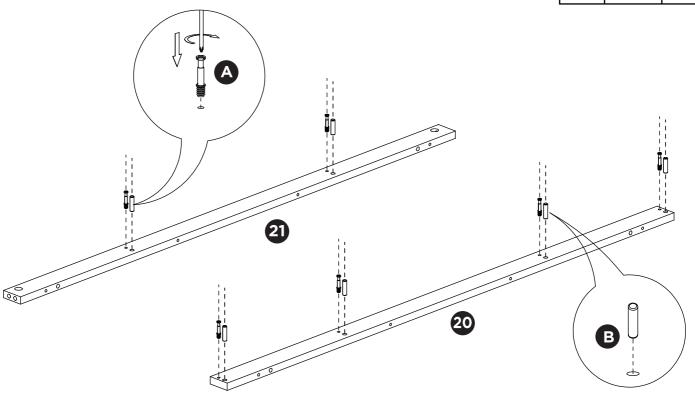

Unpack the unit and confirm that you have all the hardware and parts listed. Assemble the unit on a carpeted floor or the empty box to avoid any scratches.

Note: This TV stand uses cam bolts for assembly. During installation, do not fully tighten cam locks until you finish assembly. This will help make assembly much easier.

Care and Maintenance

It is best to keep your furniture in a climate-controlled environment. Extreme temperature and humidity changes can cause fading, warping, shrinking and splitting of wood. It is advised to keep furniture away from direct sunlight as sun may damage the finish.

Proper care and cleaning at home will extend the life of your purchase. Following these important and helpful tips will enhance your furniture as it ages.

- •Use a soft, clean cloth that will not scratch the surface when dusting.
- Use of furniture polishes is not necessary. Should you choose to use polishes, test first in an inconspicuous area.
- •Using solvents of any kind on your furniture may damage the finish.
- Never use water to clean your furniture as it may cause damage to the finish.
- Always use coasters under beverage glasses and flowerpots.
- Liquid spills should be removed immediately. Using a soft clean cloth, blot the spill gently. Avoid rubbing.
- Always use protective pads under hot dishes and plates. Heat can cause chemical changes that may create spotting within the furniture finish.
- Stains or marks from crayons or ink markers will be difficult to remove.
- Check bolts/screws periodically and tighten them if necessary.
