

26" PRO35™ TOOL CHEST 3 DRAWERS BLACK

- Fully extendable drawers capable of holding 30 kg, featuring smooth running ball bearing slides
- Protective EVA mats in each drawer
- Heavy gauge steel construction, treated with a 5-step phosphate-free rust prevention process and a powder coat finish
- Includes a 3-digit combination lock and is equipped with recessed handles and non-slip rubber feet
- Fully compatible with the TengTools Tool Control System for customized tool arrangement

The TengTools 26" PRO35™ tool chest TSM26B3 in matte black is a robust storage solution for professional settings. This space-efficient tool chest features three fully extendable drawers: two with a height of 50 mm and one with a height of 75 mm. Each drawer can hold four TengTools TC1 modules, making it compatible with the TengTools tool control system. Users can customize their storage with the compact TT sets or the protective FOAM sets modules in high-density EVA with three layers. The drawers are durable, each holding up to 30 kg and equipped with ball bearing slides. Aluminium drawer handles provide a reliable and comfortable grip. Each drawer is lined with a noise-reducing EVA mat, protecting both tools and the cabinet. Recessed side handles make repositioning easy, and rubber feet protect the working surface from scratches. A 3-digit combination lock, which can be replaced with a key lock (optional), secures your tools. Constructed from heavy gauge top-quality steel, this tool chest is built to withstand professional use and is treated with a 5-step phosphate-free rust prevention process.
